# NOTICE OF OPEN MEETING

Persons with disabilities requiring special services or accommodations to attend the meeting can make arrangements by calling the Air Pollution Control Program directly at (573) 751-4817, the division's toll-free number at 1-800-361-4827, or by writing two weeks in advance of the meeting to: DNR, Air Conservation Commission Secretary, P. O. Box 176, Jefferson City, MO 65102. Hearing impaired persons may contact the program through Relay Missouri, 1-800-735-2966. Please visit our web site at [www.dnr.mo.gov](http://www.dnr.mo.gov).

## AGENDA

Missouri Air Conservation Commission Meeting  
Holiday Inn – Westport  
Plaza 2  
1973 Craigshire Road  
St. Louis, MO 63146  
May 26, 2005  
9:00 a.m.

	Page #	
A. Call to Order		Mike Foresman
B. Minutes from April 28, 2005 (Approval Requested)	1	Mike Foresman
C. Reports - (discussion)		
1. Complaint Report	29	Steve Feeler
2. Settlement Report	77	Steve Feeler
3. Permit Reports	85	Kyra Moore

4. [Operations Report](#)

105 [Jim Kavanaugh](#)

5. [Legislative Report](#)

[Sarah McMichael](#)

6. [Director's Report](#)

[Leanne Tippet Mosby](#)

**D. Unfinished Business**

None.

**E. Recommended for Adoption and Actions to be Voted on**

[10 CSR 10-6.360 \(new rule\) Control of NO<sub>x</sub> Emissions From Electric Generating Units and Non-Electric Generating Boilers](#)

149 [Rick Campbell](#)

This rule was developed to address the Electric Generating Unit (EGU) portion of Missouri's budget in the Environmental Protection Agency's (EPA's) Oxides of Nitrogen State Implementation Plan Call, as published on April 21, 2004. The new rule establishes an emissions cap for EGUs and non-electric generating boilers based on the EPA's NO<sub>x</sub> SIP call. In addition, this rule will allow electric generating units and non-electric generating boilers in the eastern one-third of Missouri to participate in the EPA's regional trading program.

[10 CSR 10-6.380 \(new rule\) Control of NO<sub>x</sub> Emissions From Portland Cement Kilns](#)

219 [Rick Campbell](#)

This rule was developed to address the Portland Cement Kiln portion of Missouri's budget in the EPA's NO<sub>x</sub> SIP call. The new rule establishes control technologies and emission rates for NO<sub>x</sub> emissions from cement kilns.

[10 CSR 10-6.390 \(new rule\) Control of NO<sub>x</sub> Emissions From Large Stationary Internal Combustion Engines](#)

231 [Rick Campbell](#)

This rule was developed to address the large stationary internal combustion engine portion of Missouri's budget in the EPA's NO<sub>x</sub> SIP call. The new rule establishes control technologies and emission rates for NO<sub>x</sub> emissions from stationary combustion engines.

## **F. Public Hearing**

### **10 CSR 10-6.070 (amendment) New Source Performance Regulations 113 Bruce Volner**

This amendment incorporates by reference 40 CFR part 60 subparts amended between January 1, 2002 and June 30, 2003. This year's update includes a direct final amendment to subpart (GG) Stationary Gas Turbines (68FR17989). The federal rulemaking codifies several alternative testing and monitoring procedures that have been approved by EPA.

### **10 CSR 10-6.075 (amendment) Maximum Achievable Control Technology Regulations 119 Bruce Volner**

This amendment adopts by reference 18 new 40 CFR part 63 subparts finalized between January 1, 2002 and June 30, 2003. New subparts include the following source categories: Municipal Solid Waste Landfills; Paper and Other Web Coating; Surface Coating of Large Appliances; Printing, Coating, and Dyeing of Fabrics and Other Textiles; Surface Coating of Wood Building Products; Surface Coating of Metal Furniture; Reinforced Plastic Composites Production; Rubber Tire Manufacturing; Semiconductor Manufacturing; Pushing, Quenching, and Battery Stacks; Asphalt Processing and Asphalt Roofing Manufacturing; Integrated Iron and Steel Manufacturing Facilities; Brick and Structural Clay Products Manufacturing; Clay Ceramics Manufacturing; Flexible Polyurethane Foam Fabrication Operations; Hydrochloric Acid Production; Engine Test Cells/Standards; and Friction Materials Manufacturing Facilities.

Additionally, this amendment updates previously adopted subparts. These updates will be explained in detail during the public hearing.

### **10 CSR 10-6.080 (amendment) Emission Standards for Hazardous Air Pollutants 125 Bruce Volner**

This amendment updates 40 CFR part 61 subparts finalized between January 1, 2002 and June 30, 2003 previously adopted by reference. This includes a direct final amendment to subpart (FF) Benzene Waste Operations (67FR68526 and 68FR6082). The federal rulemaking adds an exemption for organic vapors routed to the fuel gas system, a new compliance option for tanks and to clarify the standards for containers. These amendments will be explained in greater detail during the public hearing.

**NO<sub>x</sub> SIP Call Emissions Budget Demonstration for Missouri**

137 Rick Campbell

The EPA's NO<sub>x</sub> SIP call required states to submit a budget demonstration to ensure that the state would meet the NO<sub>x</sub> emissions budget that EPA developed during the calendar year 2007. This document describes the rulemaking process, emission inventory development, and authorities that Missouri is relying on to complete the requirements of the NO<sub>x</sub> SIP call.

**G. New Business**

**Attorney General's Office Referrals**

Steve Feeler

Mr. John Castle (Approval Requested)	259
Precision Marble (Approval Requested)	261
Kauffman Enterprises, LLC (Approval Requested)	263
Independence Gas & Speedy Mart, Inc.(Approval Requested)	265
Mr. Lloyd Hayes, Jr. (Approval Requested)	267

**H. Appeals and Variance Requests**

University of Missouri Columbia - Variance Request for Pottery Kilns

Steve Feeler

MOPETP Variance Request from the Missouri Auto Manufacturers (Approval Requested)	269
---	-----

Steve Feeler

**I. Open Session**

This segment of the meeting affords citizens an opportunity to voice concerns to the commission on air quality issues. Please be advised, comments on specific rulemakings need to be provided as testimony, under oath, during the formal process of the public hearing for that rulemaking.

**J. Future Meeting Dates**

**June 30, 2005 – Jefferson City**

Governor Office Building  
Room 450  
200 Madison Street  
Jefferson City, MO 65101

**July 21, 2005 – Poplar Bluff**

Holiday Inn  
Salon D  
2781 North Westwood Boulevard  
Poplar Bluff, MO 63901

**August 25, 2005 – Jefferson City**

Governor Office Building

Room 450

200 Madison Street

Jefferson City, MO 65101

**September 29, 2005 – Kansas City**

DoubleTree Hotel

Salon A

1301 Wyandotte

Kansas City, MO 64105

**October 27, 2005 – Jefferson City**

Governor Office Building

Room 450

200 Madison Street

Jefferson City, MO 65101

**December 8, 2005 – Springfield**

University Plaza Hotel

Colorado Room

333 John Q. Hammons Parkway

Springfield, MO 65806

**K. Discussion of Pending Litigation and Legal Matters**

Tim Duggan

(This portion of the meeting may be closed, pursuant to Section 610.021 (1), RSMo, after a vote by the Commission.)

**L. Meeting Adjournment**

Mike Foresman

**MINUTES**  
**MISSOURI AIR CONSERVATION COMMISSION**  
**Harry S Truman Building**  
**Room 490**  
**301 W. High Street**  
**Jefferson City, MO 65101**  
**April 28, 2005**  
**9:00 a.m.**

**Commissioners Present**

Jack C. Baker, Member  
Joanne Collins, Member  
Mark J. Fohey, Member  
Michael Foresman, Chairman

**Staff Members Present**

Karl Barke, Springfield Air Quality Control  
Darcy Bybee, Compliance/Enforcement Section, Air Pollution Control Program (APCP)  
Rick Campbell, Operations Section, APCP  
Tiffany Campbell, Operations Section, APCP  
Tim Duggan, Attorney General's Office (AGO)  
Steve Feeler, Compliance/Enforcement Section Chief, APCP  
David Gilmore, Commission Secretary, APCP  
Wayne Graf, Operations Section, APCP  
Paul Jeffery, Compliance/Enforcement Section, APCP  
Jim Kavanaugh, Operations Section Chief, APCP  
Sarah McMichael, Public Information Specialist, APCP  
Kyra Moore, Permits Section Chief, APCP  
John Noller, Energy Center  
Gus Ralston, Kansas City Urban Outreach Office  
Omer Roberts, Environmental Assistance Office  
Richard Swartz, Compliance/Enforcement Section, APCP  
Missy Seeligman, Program Secretary, APCP  
Leanne Tippet Mosby, Director, APCP  
Bruce Volner, Operations Section, APCP  
John Weber, Compliance/Enforcement Section, APCP  
Brenda Wilbers, Energy Center  
Peter Yronwode, Compliance/Enforcement Section, APCP

**Others Present by Attendance Record**

Mike Alesandrini, Regional Chamber & Growth Association (RCGA) – St. Louis  
Amy Algoe-Eakin, U.S. Environmental Protection Agency (EPA) Region VII  
Peter Ashbrook, University of Missouri - Columbia  
Tyrone Barren, Bayer CropScience

John R. Barsanti, Jr., Armstrong, Teasdale, LLP  
Jennifer Calnen, Vision Environmental, Incorporated  
Daniel Carney, Schreiber, Yonley and Associates  
Karen Curtit, Shell Engineering and Associates, Incorporated  
Kathrina Donegan, St. Louis County, Air Pollution Control  
Michelle Ferguson, Holcim (US) Incorporated  
Steve Flier, U.S. Army  
Sue Forest, Daimler Chrysler  
Dave Fraley, City Utilities of Springfield  
Cheryl Hammond, Sierra Club  
Melissa Hart, ENVIRON  
Todd Houts, University of Missouri - Columbia  
Raney Hastings, Hastings Engineering  
Bill Henry, BASF  
Michael Jay, EPA Region VII  
Dennis Karl, Ford Motor Company  
Harriett Morris, Kansas City Health Department  
Jon Knodel, EPA Region VII  
Gayle Lee, Shell Engineering and Associates, Incorporated  
Ed McKane, University of Missouri  
Tim Neal, Fort Leonard Wood  
Kevin Perry, REGFORM  
Norb Plassmeyer, Associated Industries of Missouri  
Steve Rudloff, Missouri Limestone Producers Association  
John Salkowski, Holcim (US) Incorporated  
David Shanks, Boeing  
Kurt Srp, Kansas City Air Quality Program  
Patty Strabbing, Daimler Chrysler Corporation  
Steve Whitworth, Ameren  
Midge Winkler, General Motors  
Carrie Yonley, Schreiber, Yonley and Associates

**A. Call to Order**

Chairman Mike Foresman called the April 28, 2005, meeting of the Missouri Air Conservation Commission to order. Chairman Foresman noted all commissioners were present.

**B. Minutes, March 31, 2005, Meeting**

Commissioner Joanne Collins moved to approve the minutes as written. Commissioner Jack Baker seconded and all commissioners voted to approve the minutes.

**C. Reports - The following referenced reports are in the April 28, 2005, Missouri Air Conservation Commission Briefing Document.**

**1) COMPLIANCE/ENFORCEMENT**

Steve Feeler referred the commission to the Complaint Report beginning on Page 25. The department received 186 complaints during the month of March. The large number of complaints were due to Confined Animal Feeding Operations in northern Missouri and the Renewable Environmental Solutions (RES) facility in Carthage. The Southwest Regional Office is performing daily surveillance of the RES facility and has issued three Notices of Excess Emissions. An odor control plan has been submitted by RES and they will be installing a new larger thermal oxidizer within the next few weeks.

The Settlement Report starts on Page 61 and lists those cases in which the program has negotiated a settlement agreement.

**2) PERMITS**

Kyra Moore referred the commission to the permit reports beginning on Page 71 with the Permit Applications Received Report. For the month of March, the program received 73 construction permit projects and 26 operating permit projects.

The Permit Applications Completed Report begins on Page 82. For March, the program completed 87 construction permit projects and 33 operating permit projects.

The Operating Permit Progress Report begins on Page 97. This report shows a summary of the operating permit program.

The Doe Run – Herculanum Part 70 operating permit is on public notice as of April 24, 2005. The public notice and public comment period extends for 30 days. The program is working with the company and the community to schedule a public hearing.

[NOTE: The date for the public hearing is May 26, 2005 at 7:00 pm at the Herculanum High School. The program has extended the public comment period until June 6, 2005.]

W.B. (Bart) Tichenor has been appointed as the Hearing Officer for the City Utilities of Springfield permit appeal.

Kansas City Power and Light (KCPL) has proposed to build a second coal plant next to the Iatan plant. KCPL is changing their permit application. The current

in-house application is on hold until KCPL submits a revised application. KCPL has indicated they will submit the revised application at the end of May. The program is working with RES to issue them a permit for their thermal oxidizer.

Chairman Foresman commented that there was an article in the April 26, 2005, St. Louis Post Dispatch, which stated total compliance for KCPL and future buildout. The article also mentioned that the department had supported KCPL at the Public Service Commission (PSC) meeting.

Ms. Moore replied that the program participated in the workshop meetings with the PSC on this agreement. However, the department staff referenced in the article was staff from the department's Energy Center. The Energy Center was involved in helping the PSC draft the agreement. Program staff participated in the workshops at the request of Shelly Woods from the Attorney General's Office to answer questions on control equipment.

Chairman Foresman commented that the article was not specific and that it appeared that everything had been preapproved. He knew that was not the case.

Ms. Moore replied that program staff was involved and were aware of the plans, but were not involved in drafting the actual agreement. Basically, part of KCPL's proposal is to install pollution control equipment at their existing plants at LaCygne and Iatan 1. Obviously, this is something the program supports.

### **3) OPERATIONS**

Mr. Kavanaugh referred the commission to the three Operations reports beginning on Page 99 with the Rules and SIP Agenda followed by the Rules in Progress Schedule on Page 259 and the State Air Quality Plans Status Report on Page 263.

Mr. Kavanaugh requested the commission approve two necessity findings. The first, 10CSR 10-1.030 is the Commission Appeals and Requests for Hearings rule. This rule was developed through the commission core workgroup with Tim Duggan and others participating. The draft language and the regulatory impact report was provided to the commission and notice of availability was published on January 31, 2005. The documents were available for a 60 day comment period and no comments were received.

The second rule is 10 CSR 10-6.110, which is commonly referred to as the Emission Fees rule. That rule is primarily an administrative rule. It does not require any environmental conditions or prescribe any environmental standards. The rule was not put out for a 60 day comment period. The program has presented fiscal information including expenditures, revenues and projections to the Air Program Advisory Forum and to other industry representatives. Following the commission meeting today, a final presentation and discussion is

scheduled for the Air Advisory Forum meeting. The rule needs to be filed by the middle of May to have it in effect by the end of the year.

Missouri is required to develop a maintenance plan for the eight hour ozone standard for the Kansas City metropolitan area. The state has until June of 2007. Missouri has an existing one hour ozone maintenance plan, however EPA is planning to revoke the one hour ozone standard in June of this year. So as a placeholder, a maintenance plan to transition from the one hour to eight hour ozone standard is necessary. This can be accomplished by changing some triggers in the contingency section of the plan.

Chairman Foresman inquired as to why the maintenance plan would need to be updated prior to the eight hour standard.

Mr. Kavanaugh replied that once the one hour standard is revoked, there would be no federal standard in the maintenance plan to provide a means to implement contingencies as necessary. The state will go through a longer stakeholder process to develop a full eight hour maintenance plan on attainment demonstration over the next couple of years.

Commissioner Collins inquired if it was acceptable to just take out the one hour standard, and put in the eight hour standard and submit the same plan.

Mr. Kavanaugh replied that there are contingencies in place that have already been established through a stakeholder process with Mid-America Regional Council, the State of Kansas and EPA. The program is not proposing to require anything new or additional. In the interim, while a complete eight hour maintenance plan is being developed, it is believed adding the eight hour ozone definitions, methods and monitoring requirements will provide the necessary minimum changes that trigger action.

Commissioner Collins inquired if that would have to be submitted to EPA.

Mr. Kavanaugh replied yes, and that tentatively it would be presented at the June commission meeting.

Chairman Foresman inquired if it would be easier to do it with an order from the commission essentially saying that the one hour standard State Implementation Plan (SIP) plan will be in enforcement for the eight hour standard during in the interim until the eight hour is finalized. The program could work on that rather than change the document.

Mr. Kavanaugh replied that he could look into that option and discuss with the EPA and with Kansas Department of Health and Environment, but he thought that it required a SIP revision.

Chairman Foresman replied that it would be an easier way rather than to rewrite a 300 page document. The program should do whichever is easiest to facilitate.

Mr. Kavanaugh mentioned that on April 25, 2005, a Federal Register notice was published as a final rule. Basically the rule finds that states have failed to submit SIPs to satisfy the requirements of Section 110 of the Clean Air Act for the eight hour ozone and PM<sub>2.5</sub>. The EPA came out with the new standards in 1997, or shortly thereafter. The rule was followed by a number of court actions, court orders and stays. Per the Clean Air Act, states should have submitted 110 SIPs within three years of that new standard being published. Apparently, no states have done so as yet. Therefore, EPA has published this final rule that requires all states to submit SIPs within the next two years, or EPA will issue a Federal Implementation Plan. The program has proposed rules under development to address the Section 110 SIP Requirement for the eight hour ozone and PM<sub>2.5</sub> Standards and is on schedule to do that within the next few months.

#### **4) LEGISLATIVE REPORT**

Ms. Sarah McMichael addressed the commission and gave a brief update on the legislation proposed that would affect the commission or the Air Pollution Control Program.

House Bill 697, sponsored by Rep. Lembke, which affects the IM program was perfected by the House and referred to the House Fiscal Review Committee.

House Bill 824, which dealt with the program's emissions fee, was amended to include provisions related to Land Reclamation and the Administrative Hearing Commission. This bill was passed out of the House and reported to the Senate on April 25, 2005.

The only other bill that has progressed is Senate Bill 548, which replaces all administrative departments' hearings with a new Office of Administrative Hearings. The Senate Governmental Accountability and Fiscal Oversight Committee held a hearing on this bill on April 7, 2005.

#### **5) DIRECTOR'S REPORT**

##### **a) Doe Run - Herculaneum**

Leanne Tippet Mosby addressed the commission and updated them on Doe Run – Herculaneum. Doe Run – Herculaneum had a violation of the

lead standard for the first calendar quarter of this year. It was 1.88 micrograms per cubic meter and the standard is 1.5. The program sent formal notification to Doe Run once the data had been quality assured. Doe Run was already aware of the violation because they do monitoring themselves. The program will be meeting with the company soon to investigate the situation and determine the best course of action for bringing them back into compliance. The commission will be informed as that progresses.

**b) House Bill 697**

Ms. Tippet Mosby stated she testified in committee on House Bill 697 generally in support of the bill. One change was made in committee that did take care of the concern she had about labor costs of any individual being counted toward a waiver. The provision conflicts directly with federal regulation so that provision was changed while it was in committee. An additional change that occurred on House committee substitute was the maximum waiver limit was lowered from \$450 to \$300. Ms. Tippet Mosby stated that there is some concern about that and how it might affect the program's waiver rate. As the commission may recall, the program has a SIP commitment to have no more than eight percent of vehicles waived in the program. Currently the program is at five percent so there is some cushion. It remains to be seen what the decreased waiver limit would do to the program's waiver rate. Right now the bill has been laid over on the house perfection calendar. There was an amendment attempted on the House floor to do what Representative Selby's bill would have done, which is completely discontinue the program as of January 1, 2006, but that amendment was defeated.

Ms. Tippet Mosby also discussed other provisions in the bill, including: a provision that would exempt Senior Citizens that drive less than 5,000 miles a year from having testing; a provision that would allow a test to be good for 90 days even if a transfer of title occurs; and, an expansion of the exemption for model years from the newest two years to the newest four years.

Chairman Foresman inquired how the four year versus the two year impacts the program.

Ms. Tippet Mosby said she had a conference call with the EPA and she is fairly comfortable with most of the provisions, notwithstanding the waiver. The waiver may have a little effect, but there should be enough cushion as mentioned previously. The other provisions should not impact the effectiveness of the program. Since there is about a three to four

million dollar impact to the contractor, there is some concern about what the contractor might do about the loss of revenue.

**c) House Bill 824**

House Bill 824 is another piece of legislation discussed at the last commission meeting. Currently there is a fee range within the statute that is 25 dollars to 40 dollars with adjustment of the range allowed consistent with the Consumer Price Index (CPI). What this bill seeks to do is put a "hard" range in, from 25 dollars to 40 dollars, with no allowance for adjustment of the range. It would also limit the annual adjustment to the CPI. For instance, if that bill were to pass, the program would be limited this year to a maximum fee of \$33.79 if the CPI that came out in February of 2005 is used. The program has been working with industry representatives on that bill. Ms. Tippet Mosby expects that bill to be amended to take out the annual CPI adjustment and just leave the hard cap at 40 dollars. Ms. Tippet Mosby said she would keep the commission updated on that bill.

**d) Missouri Performance Evaluation Testing Procedures (MOPETP) Variance.**

There are some representatives from the automotive industry here today and they will be giving a presentation. No formal action is being requested on a variance today. Since it is a fairly complicated issue, only information will be presented. Ms. Tippet Mosby wanted to give the commission the opportunity to ask questions or ask program staff to provide information before the next commission meeting to make sure the commission fully understands what the program is asking for and why the program is proposing to go in this direction. The program has been working very closely with the automotive industry on this issue and is in general agreement.

The program is looking at exempting the initial fueling at auto plants from the MOPETP testing. MOPETP is part of the Stage II Vapor Recovery requirements. Ms. Tippet Mosby stated the reason she feels comfortable going in that direction is because the automotive industry has convinced her it is like comparing apples and oranges when comparing their facility's initial fueling to the average gas station. The main difference being, the average gas station can go out and buy equipment off the shelf already approved through MOPETP so they don't have to go through MOPETP testing. At these facilities, they have to design their fueling systems specifically for their vehicles and they have to make frequent changes to that design to adapt to their processes. Therefore, it is very expensive for these facilities to continually test.

Ms. Tippet Mosby said she was going to ask the commission to revise the rule to get the same control, but to delete the requirement for the actual testing every time the facilities make a change.

**e) Air Program Advisory Forum**

The Air Program Advisory Forum will meet after the commission meeting at 1 p.m. Ms. Moore is the new coordinator for the forum since Ms. Kelen Shostak left the program for a job in the private sector.

Discussion of the fee rule will continue. Ms. Carolyn Kliethermes will make another presentation. The forum will also hopefully conclude the discussion about the Notice of Violation (NOV) procedures. The forum has had several discussions about the process for issuing NOVs.

Mr. Feeler drafted a detailed document to present to and discuss with the group.

Commissioner Collins inquired if the commission could go to Carthage shortly after RES installs the equipment that will remove the odor.

Ms. Tippet Mosby said that would be possible and would look into scheduling a tour for the commission.

**D. Unfinished Business**

None.

**E. Public Hearing**

Chairman Foresman called the public hearing to order.

Rick Campbell presented 10 CSR 10-6.360 (new rule) Control of NO<sub>x</sub> Emissions From Electric Generating Units and Non-Electric Generating Boilers. Information on the proposed rule begins on Page 107 of the April Briefing Document.

Rick Campbell presented 10 CSR 10-6.380 (new rule) Control of NO<sub>x</sub> Emissions From Portland Cement Kilns. Information on the proposed rule begins on Page 183 of the April Briefing Document.

Rick Campbell presented 10 CSR 10-6.390 (new rule) Control of NO<sub>x</sub> Emissions From Large Internal Combustion Engines. Information on the proposed rule begins on Page 191 of the April Briefing Document.

To obtain a copy of the hearing transcript, please contact the court reporter.

**F. Recommended for Adoption or Actions to be Voted on**

Wayne Graf presented 10 CSR 10-6.065 (amendment) Operating Permits. Information on the proposed amendment begins on Page 197 of the briefing document.

Commissioner Foresman inquired if 90 days was sufficient time to for the source to submit an intermediate operating permit application.

Ms. Moore replied that in most cases 90 days is sufficient time to for the applicant to complete the forms and submit them to the program.

Commissioner Collins inquired as to how the word “relevant” was changed.

Mr. Graf replied that the word “relevant” was removed.

Commissioner Baker moved to approve the amendment. Commissioner Mark Fohey seconded, all commissioners voted to approve the amendment.

**G. New Business**

Commissioner Collins moved to approve the Necessity Findings for 10CSR 10-6.110 and 10CSR 10-1.030. Commissioner Fohey seconded; all commissioners voted to approve the findings.

**H. Appeals and Variance Requests**

University of Missouri – Columbia

Mr. Feeler stated the first variance is related to the University of Missouri (MU) at Columbia. MU has two kilns that they use in their pottery department. Those kilns have a very high opacity part of the time that they are in operation, which violates Missouri’s rule for visible emissions. In October 2003, the commission issued a variance for one year to give MU time to come up with a solution to that high opacity problem. Subsequent studies or proposals from environmental engineering firms indicated that it would probably be cost prohibitive for MU to control the kilns. MU requested an extension to that variance and also proposed a rule change in late 2004. Mr. Peter Yronwode and Mr. John Rustige indicated they believed they could help engineer a control system for these kilns. As the kilns are operating this weekend,

Mr. Yronwode and Mr. Rustige will be gathering data so they can begin to engineer a control devise.

Mr. Todd Houts gave a presentation to the commission concerning the background and operations of MUs kilns. Appendix A contains his presentation.

Chairman Foresman noted that the parking lot is at the same elevation as the top of the stack for the large pottery kiln. In previous firings, black smoke came out of the stack and traveled across the parking lot obscuring vehicles. That is a public health issue. The commission is encouraged that MU is working with program staff to define the actual amount of emissions.

Chairman Foresman stated that because the variance needs to be written in detailed terms, it is not appropriate that it be approved as it is currently written. The commission granted permission to MU to test fire their kilns for this weekend to allow program staff to gather emissions data in order to prepare a variance for future approval by the commission. Chairman Foresman thanked Mr. Houts for his time and for providing the information.

#### MOPETP

Ms. Patty Strabbing from Daimler Chrysler gave a presentation to the commission concerning the background of MOPETP and why a variance is being sought to the rule. Appendix B contains her presentation.

Chairman Foresman inquired about storage tanks at the facilities that store the gasoline and the controls existing on the storage tanks and the controls on the loading and unloading into the storage tanks. Will they continue to be regulated as they are?

Ms. Strabbing replied that Stage I controls for the filling of those storage tanks will remain constant and they will continue to comply with the tank rules.

Chairman Foresman inquired if the facilities in Missouri use Stage II incineration.

Ms. Strabbing replied that when you have Stage II at an initial fill operation in an assembly plant you are also going to have some incineration with that.

Chairman Foresman asked why incineration rather than vapor recovery recondensation?

Ms. Strabbing replied it is a recovery system but it is with the idea that it is contained up to the hose that some vapors are coming off and that the incinerator would control those.

Chairman Foresman inquired as to the volume of gasoline through the Chrysler assembly plant.

Ms. Strabbing estimated a couple of million gallons per year.

Chairman Foresman thanked Ms. Strabbing for working with program staff on the issue and that the commission would be prepared to entertain discussions on a variance in the future.

## **I. Open Session**

**Mr. Jack Barsanti addressed the commission. Following is a summary of his comments:**

Mr. Barsanti commented that he has noticed a marked improvement in the culture and attitude in program staff and attributes that to the leadership of the commission.

**Mr. Kevin Perry addressed the commission. Following is a summary of his comments:**

Mr. Perry commented that the Water Pollution Control Program announced the formation of the Water Program Advisory Forum. Mr. Perry stated the Water Program has observed what the air program has been doing on the Air Program Advisory Forum and has noted how important and productive the work of the Air Program Advisory Forum has been.

Mr. Perry stated he believes one of the reasons the Air Program Advisory Forum is effective is because people come and participate. One of the reasons they come and participate is because results actually happen.

Chairman Foresman replied that is the key. The forum provides a basis for people to have their discussions, agreements and disagreements, and from that communication something actually happens.

Mr. Perry commented that the MOPETP presentation is a good example of industry wanting to comply with regulation. They have identified a regulation, that for no ill-intended purpose, does not work.

Mr. Perry stated he supported the facilities involved in the MOPETP presentation and this is another opportunity to take action and make a decision that would make a difference to businesses trying to comply with regulation.

Chairman Foresman replied the commission appreciates the input from REGFORM, RCGA, Associated Industries, individual members, the regulated community and environmental organizations.

As the commission and staff work through complex regulations, and because it is difficult to determine the actual impact of a proposed regulation on facilities, it is helpful when

comments are received from industry. Their input helps to make better rules that are affective and have the support of the people.

**J. Future Meeting Dates**

**May 26, 2005 – St. Louis**

Holiday Inn Westport  
Plaza 2  
1973 Craigshire Road  
St. Louis, MO 63146

**June 30, 2005 – Jefferson City**

Governor Office Building  
Room 450  
200 Madison Street  
Jefferson City, MO 65101

**July 21, 2005 – Poplar Bluff**

Holiday Inn  
Salon D  
2781 North Westwood Boulevard  
Poplar Bluff, MO 63901

**August 25, 2005 – Jefferson City**

Governor Office Building  
Room 450  
200 Madison Street  
Jefferson City, MO 65101

**September 29, 2005 – Kansas City**

DoubleTree Hotel  
Salon A  
1301 Wyandotte  
Kansas City, MO 64105

**October 27, 2005 – Jefferson City**

Governor Office Building  
Room 450  
200 Madison Street  
Jefferson City, MO 65101

**December 8, 2005 – Springfield**

University Plaza Hotel

Colorado Room

333 John Q. Hammons Parkway

Springfield, MO 65806

Ms. Tippet Mosby stated the rest of the meeting dates have been set for the rest of the year. In December, the commission will meet in Springfield and it would be a good opportunity to set up a tour of RES in Carthage.

The commission was agreeable to such a tour.

**K. Discussion of Pending Litigation and Legal Matters**

None.

**L. Missouri Air Conservation Commission**

Chairman Foresman adjourned the April 28, 2005, Missouri Air Conservation Commission meeting.

Respectfully submitted,

---

Leanne Tippet Mosby, Director  
Air Pollution Control Program

Approved:

---

Michael Foresman, Chairman  
Missouri Air Conservation Commission

NERO	4/25/2005	PARKER'S CREMATORY	Columbia	Boone	Other	Lou's Lounge		
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office checked Parker's Crematory file and found there is a Basic Operating Permit requiring an annual submission of Emission Inventory Questionnaire, an annual Method 9, and a submission of an Operating Permit renewal six months prior to expiration. The permit expired in September so the renewal application is overdue. Parker's Crematory has not submitted an EIQ. An inspection should determine if annual Method 9 has been completed.							
<b>Comp. No.</b>	NE11176	<b>Comp. Info</b>	The complaint states particulate matter from Parker's Crematory is on his roof. The Columbia Health Department or staff from Parker's Crematory collected samples and had them analyzed. Ms. Lisa Hanlon, of the U.S. Environmental Protection Agency's Region VII contacted the regional office on April 25, 2005, and stated the Health Department had the samples analyzed.					
NERO	4/27/2005	DUSTIN VOTT	Fayette	Howard	Burning	Olivia Gill		
<b>Comments</b>								
<b>Comp. No.</b>	NE11187	<b>Comp. Info</b>	The complainant reports another home burned after department staff had been to Fayette inquiring about the Broadus home fire on April 21, 2005. It is believed the home was burned between April 23, 2005, and April 25, 2005. The home was located on Leonard Street near the intersection of Elm Street in Fayette. The owners live in Columbia but were originally from the Fayette area. Their first names are Dave and Carla, but the last name is unknown. The reported party demolished the home with the intention of constructing a new home on the lot. Mr. Dustin Vott tore down the house for them and pushed sections of the home in a hole dug on the property and then set it on fire. The hydraulic lines on Mr. Vott's dozer broke and caught on fire. The fire department had to go to the property to extinguish Mr. Vott's dozer.

<b>Comments</b>								
<b>Comp. No.</b>	NE11188	<b>Comp. Info</b> The complainant reports a house located on East Davis Street in Fayette was burned down the same weekend as the Broadus house on Walnut Street. Mr. Kenneth Roberts was the contractor who did the work. Mr. Roberts pushed the burn debris into an old cellar located on the property. The house is next door to Mayor Fisher's home and may be owned by the Mayor.						
NERO	4/18/2005	BROADUS, GERLT & BANKS	Fayette	Howard	Burning	Olivia Gill	MIH	
<b>Comments</b> An inspector with the Missouri Department of Natural Resources' Northeast Regional Office contacted Mr. Trevor Harris with the Mid Missouri Regional Planning Commission, who was arranging for a Community Block Grant for Fayette to demolish 31 homes. Mr. Harris needs the addresses and property owners names for the homes paid for with block grant funds before proceeding. The complainant said city official said bids were submitted, but homes were burned instead of being properly disposed. The inspector left a message for Mr. Harris.								
<b>Comp. No.</b>	NE11159	<b>Comp. Info</b> The house located on Walnut Street in Fayette, directly behind 314 East Morrison was pushed down by Mr. Kenneth Roberst and burned by the Broadus family on Saturday, April 16, 2005. The house was owned by the late Mr. Archie Broadus and was burned down by his relatives. The Fayette Fire Department responded to the fire and extinguished it after the siding on a different home owned by the Broadus family. The siding that melted has been tossed onto the pile of unburned debris from the Archie Broadus burned home. The City told people in Fayette to clean up their properties and they have been burning them. The City Administrator agrees the houses should not be burned down, but on the other hand is allowing it to happen without calling the Missouri Department of Natural Resources. Four houses located at the corner of Louisiana Street and Morrison Street and one located on South Park Street was burned down approximately one month ago by Donald Gerlt and Tommy Banks from Fayette.

<b>Comments</b>	Emery Sapp and Son's, Inc. is using a mobile crusher rented from Roland Machinery to crush part of Old 63 Road at Grindstone Parkway. The length of road to be crushed is 100-200 yards in length. Particulate is leaving the property to the east and is entering the parking lot of The Bluffs Long Term Care Facility. The investigator conducted two consecutive six minute opacity readings of the conveyor discharge plume. The first six minute Method 9 average is 45.83% and the second six minute average is 48.75%. An inspector with the Missouri Department of Natural Resources' Northeast Regional Office spoke with Mr. Sean Sapp and Mr. Scott Stuckey at Emery Sapp and Son's, Inc. Columbia office and stated they just found out after the inspection the crusher was outfitted with a water spray system and it would be made functional by the afternoon. Mr. Sapp stated after this piece of roadway is crushed, the machinery will be returned to Roland Machinery. The inspector went back to the crushing site after speaking with Mr. Sapp and Mr. Stuckey and found a water tank was attached to the crusher at that time. Pictures of the crushing operation were taken during both visits. On April 8, 2005, the inspector contacted Roland Machinery Company. Roland Machinery Company stated this piece of equipment is a Nordberg LT1213 and the department determined no construction permit is required in New Source Review Permit Application, Project Number: 2002-06-102. On April 7, 2005, Mr. Paul Jeffery contacted the Northeast Regional Office because on April 6, 2005, at 4:23 p.m. Mr. Jeffery observed an instantaneous opacity of 90-100% while traveling east on Nifong. Mr. Jeffery stated earlier in the week the material leaving the discharge conveyor appeared wet. Notice of Excess Emissions #0863NE and #0864NE will be issued for the opacity exceedance observed on April 4, 2005, and for fugitive particulate leaving the property and entering the property of The Bluffs Long Term Care Facility.								
<b>Comp. No.</b>	NE11061	<b>Comp. Info</b>	Plant is making gravel. The dust is really bad.

<b>Comments</b>	The inspector with the Missouri Department of Natural Resources' Northeast Regional Office observed the quarry crusher operating and no dust leaving the property from the Norris Aggregates Products Company. No violation of 10 CSR 10-6.170 Restriction of Particulate Matter to Ambient Air Beyond the Premises of Origin. During the follow-up investigation on April 19, 2005, although the quarry was operating and the wind blew 20 to 30 miles per hour from the south and southwest, there was no dust blowing across the property boundary onto the Johnson property. The inspector spoke with the complainant who assured the inspector a follow up visit to the quarry along Randolph County Road 2130 when the wind is from the south or southwest would show dust crossing the property boundary onto the Johnson land. The inspector did not observe any violation was on April 4, 2005, or on April 19, 2005.								
<b>Comp. No.</b>	NE11048	<b>Comp. Info</b>	Norris Aggregate Quarry on Highway 3, South of Huntsville has large amounts of dust leaving the property and coming onto the complainant's property. The wind is blowing hard today and there is a cloud of dust over his property. The dust is a problem any time wind is out of the south or southwest.						
NERO	4/5/2005	4/4/2005	CECIL GRAVES	Millersburg	Callaway	Burning	Jason Bedsworth	SMB	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office spoke with Mr. Jason Bedsworth. Mr. Bedsworth will mail the department a copy of his incident report. There were several dump truck loads of shingles possibly from Mr. Cecil Graves' jobs. The address given is the father's address. The father arrived at the scene after the fire department arrived. It seems Mr. Graves, Sr. may have been responsible for the burning, but the waste is his son's. The burning took place at the site of a new house construction but there were more shingles than would have come from one house. The inspector drove by the property on April 7, 2005. The waste is mostly shingles, with other construction waste included. The inspector estimated approximately six pick-up loads of shingles. Mr. Cecil P. Graves burned waste in two locations. They burned some waste approximately 50 or 100 feet from the home under construction. It appears someone may be living in the house. The largest pile of shingles had been put out by the fire department. These were located approximately 100 to 150 yards downhill west of the house along the driveway. Pictures were taken of the waste piles. No one was at the property, although tracks showed someone had been there that morning. The inspector went by Mr. Cecil P. Graves' house in Fulton and no one was there. The inspector received a call from Mr. Cecil P. Graves on April 8, 2005, at 10:45 a.m. The inspector issued Notice of Violation #0680NE to Mr. Cecil P. Graves based on the fire department incident report. The inspector issued Notice of Violation #1734NE to Mr. Cecil D. Graves for illegal disposal of shingles and construction waste on the Mr. Cecil D. Graves' property. The department requires disposal of waste at a permitted landfill within 60 days of receipt of the report. The inspector requested Mr. Cecil P. Graves provide Northeast Regional Office with landfill receipts within 75 days of the receipt of the report. The inspector will stop by when in the area.								
<b>Comp. No.</b>	NE11085	<b>Comp. Info</b>	The complainant was dispatched to an illegal fire containing construction debris including asphalt shingles, vinyl siding and lumber. The fire was discovered by a deputy sheriff at 11:00 p.m. on April 2, 2005. The fire was extinguished and the owner was advised not to rekindle it.						
NERO	4/5/2005	4/4/2005	JAMES LAGE	Jefferson City	Cole	Burning	J. Turner, Fire Chief	SMB	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office contacted Mr. Lage by telephone and informed him of the Open Burning Regulations. Mr. Lage had contacted both the Cole County and Jefferson City Fire Departments before burning, but had not been informed of the 200 yard setback requirement for open burning of brush outside city limits. Mr. Lage stated he has some more to burn and will follow those requirements with the rest of the brush. Mr. Lage is aware of the requirements that the waste from construction jobs cannot be burned. Mr. Lage stated he takes this waste to a landfill for disposal. The investigator informed Mr. Lage of Open Burning Regulations by providing technical bulletins.								
<b>Comp. No.</b>	NE11094	<b>Comp. Info</b>	The Jefferson City Fire Chief contacted Mr. Brian Newby, of the department's Air Pollution Control Program. Mr. Newby spoke with Mr. James Lage, who explained the fire was outside of the city limits. The fire was near a subdivision and was filling the subdivision with smoke. The local Fire Chief said the fire was 75 feet from the subdivision. Mr. Newby and the Fire Chief told Mr. Lage to cover the fire with dirt to put it out. Mr. Lage agreed to do so.

NERO	4/8/2005	4/8/2005	WALLY & DARLENE SPENCER	Portland	Callaway	Burning	Anonymous	MIH	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office met with Mrs. Darlene Spencer at the Spencer property. The inspector observed a small amount of smoldering coming from burning in a barrel. Mrs. Spencer told the inspector she burned some trash out of the shed earlier. Mrs. Spencer aslo stated her husband worked from 6:00 a.m. to 4:00 p.m. at the Callaway County Nuclear Plant and he had not been home to burn anything. There was a trash dumpster sitting in the front yard near the driveway from Ebersol Trash Service. Mrs. Spencer said she burned some household waste after she had filled her dumpster. The inspector asked Mrs. Spencer if she received our letter regarding the open burning restrictions and she said they had and they had written back to our office stating they would not violate the open burning restrictions. The inspector discussed with Mrs. Spencer the necessity to comply with the state regulations. Mrs. Spencer stated she understood what they could and could not burn. No violations of the state regulations were observed at the time of the investigation.								
<b>Comp. No.</b>	NE11123	<b>Comp. Info</b>	The complainant reports approximately one hour ago, Wally and Darlene Spencer, of Portland, started burning insulation off of copper wire in a barrel at their shed. They are also burning clothing, cardboard boxes, shoes and boots brought from Ms. Spencer's sister's secondhand store (called Fred's Closet) located in Rolla. They go through items brought from the store and burn what they cannot use. The items are kept in the garage or in a tin shed. Also, several rolls of wire with insulation on them are stacked along the outside wall of the shed, possibly in preparation for burning. Mr. Spencer states that much of the burning will take place on weekends.

Info</b>	On April 11, 2005, at 9:02 p.m., the complainant filed the following two reports of odors from PSF Whitetail, "April 11, 2005, I would like to file an odor complaint. As I drove by the site going East around 4:30 a.m., I encountered a strong gassy odor coming off their factory farm. The odor seemed to take all the available oxygen out of my truck and left me gasping for breath, coughing, and gagging. At the time, it had just started to rain and I did not run out of this smell until I was East of it. Then, the odor lingered in my truck for a long time." "April 11, 2005, Fred, Leta, and Melody Torrey would like to file an odor complaint. They stated the odor had moved in so bad around 11:00 a.m. that Fred was forced to shut his shop up tight due to the odor making him sick. The odor was still with us when I got home around 4:00 p.m., the wind is out of the East Southeast."

NERO	4/14/2005	4/13/2005	HOLCIM	Clarksville	Pike	Odors	Sean Mansfield	DLK	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office conducted a routine air pollution inspection of this facility on April 14, 2005. During the inspection, no odors were detected and the facility was running normal. The regional office requested monitoring data at this time for April 13, 2005, (the day of the odor complaint). The facility data for April 13, 2005, shows all systems operating normally. Mr. Mansfield lives in a straight line, approximately nine miles from this facility. The department has not received any other concerns of odors. The inspector did not observe any violations. The facility was running normally on April 13, 2005, with no upsets or changes in fuels.								
<b>Comp. No.</b>	NE11139	<b>Comp. Info</b>	Today at the complainant's house, odors from the Holcim Cement Kiln made his eyes water and his nose burn. The winds are blowing out of North Northeast.

<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office met with Mr. Jeff Johnson at Johnson Garage. The reported party was not painting at the time of this investigation. The inspector did not detect odors at this time. Mr. Johnson showed Mr. Kinkhorst the paint room on this site. The paint room is indoors and is filtered for particulate. Mr. Johnson stated he does not paint outside. Mr. Kinkhorst gave Mr. Johnson a guide to environmental compliance for collision repair. No violations observed at the time of the investigation.								
<b>Comp. No.</b>	NE11143	<b>Comp. Info</b>	A small garage is being operated out of a house and they painted a van with primer yesterday outdoors in front of the garage building. The fumes blowing towards the neighbor's house were terrible. Today they are getting ready to paint the vehicle and the complainant is concerned the odors will be bad again. The wind is blowing in the same direction as it was when they applied the primer to the vehicle.						
NERO	4/18/2005	4/18/2005	PSF VALLEY VIEW	Green City	Sullivan	Odors	Rolf Christen	SMB	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office conducted an on-site investigation from 6:20 a.m. to 8:06 a.m. downwind from the facility. The inspector detected odors at two locations at a 7:1 dilution threshold. The inspector could not detect odors the second time at the 7:1 dilution threshold within one hour. The odors became lighter after 7:30 a.m. Weather conditions were partly cloudy, 55 degrees Fahrenheit, and winds were light at less than five miles per hour. The odors were detected about one and one-quarter miles North of the facility at a location adjoining non-spreading agreement properties surrounding the PSF Valley View properties. No violation of confined animal feeding operations odor regulation during investigation.								
<b>Comp. No.</b>	NE11199	<b>Comp. Info</b>	On April 16, 2005, at 10:34 a.m., the complainant reported the following 12 reports of odors from PSF Valleyview recorded by Mr. Ray Catlett, "March 6, 2005, at 4:00 p.m. at his house; March 12, 2005, at 9:00 a.m. at the Miller Farm; March 17, 2005, 7:00 a.m. at his house all day long; March 20, 2005, at 6:00 p.m. at the Miller Farm; March 24, 2005, 7:00 a.m. at his house and 5:00 p.m. at the Miller Farm; March 28, 2005, 5:30 p.m. at the Miller Farm; March 30, 2005, at 12:00 noon at his house; April 6, 2005, at his house all morning; April 11, 2005, at 8:00 a.m. at his house and again at 5:00 p.m.; April 13, 2005, afternoon at the Miller Farm; April 15, 2005, at 9:00 a.m. at his house; and April 16, 2005, at 7:00 a.m. at his house."

<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office located the house at 5217 Lohman Road. The house is very well kept with a well maintained yard. The inspector did not observe any waste in the yard or an area where a fire had recently taken place. The inspector contacted the concerned citizen and was told the items did not burn. The items were later picked up by a different individual and moved from the property. The inspector explained the open burning restrictions to the concerned citizen so she would know what was a violation and what was not and gave her the telephone number to the Northeast Regional Office to contact in the future. The inspector did tell the complainant if a fire actually took place after hours or on the weekend she should contact her local fire department. The inspector did not observe any violation of the open burning restrictions during the investigation.							
<b>Comp. No.</b>	NE11135	<b>Comp. Info</b>	The complainant informed the department's Environmental Emergency Response team of an illegal fire. The reported party was burning awnings, bicycles, and tables in this fire. It was not affecting a waterway and appeared to be under control. The complainant said it is a nuisance and the smoke is over the whole neighborhood. The duty officer suggested she contact the local fire department.

NERO	4/19/2005	4/14/2005	BOONE QUARRIES WEST	Columbia	Boone	Fugitive Dust	Larry Bossalla	DLK	
<b>Comments</b>	The wind is out of South Southwest at 5 miles per hour. No airborne Particulate Matter is leaving the property. Particulate Matter on paved facility haul roads is becoming airborne but is not leaving the property. Particulate Matter is being tracked by wet tires onto North Stadium Boulevard. The particulate matter at the MFA Oil & Propane (2507 North Stadium), across the road from the quarry, has an unpaved lot that is dusty but not leaving the property. The manager of MFA said they have their lot treated with surfactant at least one time per year and the quarry waters the lot at least one time per day. Don Kinkhorst, an inspector with the Missouri Department of Natural Resources' Northeast Regional Office, met with Mr. Larry Moore, CEO of Con-Ag of MO LLC (The quarry is a subsidiary of this company). Mr. Kinkhorst informed Mr. Moore a dust concern is being investigated and dust was observed on the quarry property but due to the wind direction the dust did not leave the property. Mr. Moore said the haul roads are watered continuously with the water truck only stopping to refill. Mr. Kinkhorst told Mr. Moore if the wind was blowing from a different direction Particulate Matter would possibly leave the quarry property. Mr. Kinkhorst informed Mr. Moore dust is tracked out onto North Stadium Boulevard from the quarry. Mr. Moore said his company also owns a street sweeper, which is used at times to remove the dirt from the road. Mr. Kinkhorst informed Mr. Moore other controls may be needed and suggested a wheel wash for trucks leaving the property. No violation at the time of this investigation. A letter will be written to Mr. Moore requesting a compliance plan to include control equipment schedules and ideas on how to better control emissions from this facility, including dust tracked onto North Stadium Boulevard.								
<b>Comp. No.</b>	NE11141	<b>Comp. Info</b>	An e-mail to the department's Hazardous Waste Program stated dust from the Rock Quarry at 3101 Creasy Springs Road is really bad. Also, the complainant was concerned about the noise from the trucks. The Creasy Springs Road turns white from the dust. There is dust in the complainant's house from the quarry.

<b>Comments</b>	Mary Hopke spoke with Ms. Lisa Brandenburg, the City Clerk of Auxvasse. The City Council had discussions with Mr. Hanson concerning the dust from the grain elevator. They would like to work with Mr. Hanson to get him to adopt practices, like putting soybean oil in soybeans, to reduce dust. On April 28, 2005, Mary conducted an on-site visit to the property. The reported party has been hauling out grain from a flat storage area at the north end of the property. This may be the source of dust emissions from the property. The facility was not operating at the time of visit. Mary did not observe any violations at the time of the investigation.								
<b>Comp. No.</b>	NE11163	<b>Comp. Info</b>	A citizen in the Auxvasse area is concerned about the air quality from problems with Hanson Elevator. Mary Hopke, an inspector with the department's Northeast Regional Office has copy of a newspaper clipping mailed into the NERO with a handwritten notation on the front of the paper.						
NERO	4/20/2005	4/20/2005	QUALITY GENERAL CONSTRUCTI	Trenton	Grundy	Burning	Kevin Flint	MIH	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office left a message with Mr. Flint to return my telephone call. The Northeast Regional Office needs to know the location where the construction and activities are taking place so a determination of what region the activities are taking place in can be done. Mr. Flint was asked to speak with the inspector or Mr. Greg Robertson. By April 26, 2005, no response had been received from Mr. Flint. The inspector called Mr. Blake Boxley with PSF today and asked where the new site was being constructed by Quality General. Mr. Boxley contacted the inspector and said the construction was taking place on the Chuck Weldon site and was just South of Gallatin, Missouri, and it was located in Daviess County. The information will be forwarded to the Kansas City Regional Office. The construction is not in the Northeast Regional Office and it was referred to the Kansas City Regional Office on April 26, 2005.								
<b>Comp. No.</b>	NE11156	<b>Comp. Info</b>	The complainant reports a construction company (working for PSF) located 40 miles West of Trenton is asking employees on a daily basis to burn styrofoam and to bury mercury containers, construction trash, batteries and cleaning supplies at the site. Employees who worked for the company over the past two years have developed seizures.						
NERO	4/21/2005	4/20/2005	HERITAGE HOLLOW CONTRACTO	Jefferson City	Cole	Burning	Anonymous	MIH	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Northeast Regional Office found the area where brush and construction waste had been burned on Lot #20 South of new construction. The inspector spoke with four individuals who were on Lot #20, at the time of the investigation, and they stated they were framers and had not been on the property at the time of the fire on April 20, 2005. The four individuals did not know who had set the fire and had no knowledge of the fire. Mr. Shannon Block contacted the Northeast Regional Office later on April 21, 2005, and stated he owned the lot where the new construction was being done by his company but he was not on the property when the fire took place on April 20, 2005, and did not know who had set the fire. Mr. Block said he knew about the open burning restrictions because he had received a Letter of Warning from the department three years ago. Mr. Block told the inspector he did not open burn and all his employees have been told not to burn. Although a small amount of construction had been burned on the property, it is unknown who conducted the open burning. No further action to be taken at this time.								
<b>Comp. No.</b>	NE11153	<b>Comp. Info</b>	The complainant reports construction waste is being burned at the time of the call. The complainant observed the burning at approximately 9:55 a.m. today. It is assumed the waste came from the house being constructed next to the lot where the burning took place. The complainant does not know who is doing the burning, but it is assumed to be the contractor doing the burning. There is brush being burned on top of the construction waste.

NERO	4/21/2005	4/7/2005	COLUMBIA RECYCLING CENTER	Columbia	Boone	Other	Chief Cassil	MIH	
<b>Comments</b>	Mr. Ken Hannon with the department's Environmental Emergency Response went to the site and monitored the runoff. Mr. Hannon walked the drainage and did not observe any runoff that would pose a significant environmental impact. On April 21, 2005, an inspector with the Missouri Department of Natural Resources' Northeast Regional Office met with Mr. David McBride, of Columbia Recycling, who explained 100 bales of office paper was set on fire accidentally by an employee who threw down a cigarette. The wind was blowing very hard that day and the fire got away from them quickly. Sixty of the 40 city dumpsters of burn residue has been taken to the Columbia Landfill for disposal. There is probably one dumpster of burn residue left to be removed from the property and Mr. McBride said it would be done this week. The inspector asked Mr. McBride to make sure all the litter scattered around the property is picked up on a daily basis to prevent the litter from leaving the property. No violations of the open burning restrictions or the Missouri Solid Waste Management Laws.								
<b>Comp. No.</b>	NE11097	<b>Comp. Info</b>	On April 5, 2005, at 6:45 p.m., the Columbia Dispatch contacted the department's Environmental Emergency Response Duty Officer regarding a fire at the Columbia Recycling Center located at 3300 Brown Station Road. The Columbia Fire Department reported no hazardous materials involved in the fire and the fire consisted primarily of paper and cardboard products. Fire Chief Cassil was on the scene of the incident and expressed concern with the amount of fire water runoff. There is a lot of charred paper and debris left on the site that will need to be cleaned up. Photos taken by the Environmental Emergency Response are in Mary's Photo directory, in the Download Folder.

<b>Comments</b> No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the lab prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.									
<b>Comp. No.</b> NE11231 <b>Comp. Info</b> On April 22, 2005, at 12:00 p.m., the complainant reported odors from PSF Green Hills as follows, "Mr. Gary Perkins just called and reported an extremely bad odor at his house. He said he hardly ever smelled it so bad. The odor made him gag and he could no longer be outside. Also, he does not know how long he can stand it inside with the odor slowly coming in. The winds are from the North (Green Hills)."									
NERO	4/25/2005	4/25/2005	PSF WHITETAIL	Unionville	Putnam	Odors	Jack Parrish	SMB	
<b>Comments</b> It is assumed the odors were from PSF Whitetail based on the westerly wind direction reported at Kirksville Weather station.									
<b>Comp. No.</b> NE11196 <b>Comp. Info</b> On April 24, 2005, at 9:49 p.m., the complainant reported odors from PSF Whitetail as follows, "We went over to our daughter's house this evening and found really strong odors as we stepped out of the car. We were there for one and one half hours and then it was also bad when we got ready to leave. I don't know whether the odors were from PSF or from Blankenship's confined animal feeding operations." He also reported odors from PSF Whitetail at his house on Monday, April 25, 2005.

<b>Comp. No.</b> NE11227 <b>Comp. Info</b> On April 22, 2005, at 8:34 p.m. the following two reports of odors from PSF Whitetail were made, "April 21, 2005, Fred, Leta, and Melody Torrey would like to file an odor complaint. The odor has been a combination of hog barn to a pure hog manure odor. The odor has been with us all day. The odor was horrible this morning, making it difficult to enjoy your own property. The wind has been out of the east. On April 22, 2005, Fred and Melody Torrey would like to file an odor complaint. The odor was still here very early the next morning. At that time, the odor was just a strong hog manure smell with the wind out of the East Northeast."

<b>Comments</b> An inspector with the Missouri Department of Natural Resources' Northeast Regional Office drove downwind from the main street area of Slater. The winds were blowing from Northwest and the inspector noticed an odor downwind from the railroad tracks. The odors were not strong enough to conduct a scentometer check. The inspector observed piles of grain below the rail cars parked on the side prepared for loading. The inspector contacted Mr. Bill Llewellyn of the Central Missouri Agriservice. The elevator has a stockpile of spoiled grain located on the South side of the railroad tracks, East of the grain storage area and North of the office building. Several truckloads of grain are stockpiled at the location. Mr. Llewellyn said a local hog farmer uses the spoiled grain for feed. Mr. Llewellyn agreed to contact the farmer immediately and ask him to pick up the spoiled grain. The grain was odorous and could have been the source of odors described by the complainant. The inspector indicated the grain becomes a waste if it is allowed to decompose on the elevator property and then it must be disposed of as a solid waste if it has lost its value as feed for hogs. The proper method for disposal of a solid waste (like spoiled) grain is at a permitted landfill. No violation of the odor regulation. No odors detected downwind from the plant at the time of the investigation. The reported party was advised to immediately dispose of the spoiled grain or else recycle it as feed.									
<b>Comp. No.</b>	NE11171	<b>Comp. Info</b>	The complainant reported a strong odor in the town. The locals claim the odor comes from the grainery, but it does not smell like a grainery to the complainant. The complainant describes it as a dead smell or molded water smell. The water also smells bad. The complainant has been sick since moving there seven years ago, and the smell has gotten worse over the past three years. The smell is worse on hot afternoons. The smell starts in the spring as soon as it warms up and continues through the summer and is also apparent at night. The odor is getting into the complaint's home and clothes.

NERO	4/27/2005	4/25/2005	PSF PACKING PLANT	Milan	Sullivan	Odors	Jack Parrish	SMB	
<b>Comments</b>	No on-site investigation conducted due the intermittent nature of odors. An inspector with the Missouri Department of Natural Resources' Northeast Regional Office contacted Mr. Mike Keith at the PSF Packing Plant about the report of odors. The packing plant did not report any abnormal operating conditions for the time of the odors.								
<b>Comp. No.</b>	NE11192	<b>Comp. Info</b>	On April 24, 2005, at 9:49 p.m., the complainant reported odors from the PSF Packing Plant as follows, "On Friday, April 22, 2005, when we came through Milan, the odors from the Packing Plant were a rotten mess. You had to hold your nose when you went through." Mr. Parrish spoke with the complainant later and he said the odors were noted at 3:45 p.m. on April 22, 2005. The odors were described as a sweet rotten odor.						
NERO	4/28/2005	4/26/2005	UNKNOWN	Brookfield	Linn	Asbestos	Anonymous	MIH	
<b>Comments</b>	Ms. Mary Hopke, an inspector with the department's Northeast Regional Office spoke with Mr. Dave Nelson of Tri State Construction. Mr. Nelson was removing sections of the concrete and rock foundation with a track hoe. The debris was being loaded into a dump truck. The truck load of clean fill was being taken to a Cunningham property on Highway 11 North of Brookfield and used to construct a turn-around in a driveway. Mr. Nelson told Ms. Hopke the city of Brookfield owned the hotel and their inspector, Mr. Greg Williams, was certified to do asbestos inspections. Asbestos was found and removed in September of 2004, by All State Abatement. A demolition notification was sent into the Air Pollution Control Program and approval was given for the demolition of the structure. The waste from the hotel was taken to Lone Elm Landfill in Olathe, Kansas and Mr. Nelson had the receipts. Mr. Nelson also demolished a home next door to the hotel and the waste was being taken to Onyx in Bevier. Mr. Nelson also had receipts for this. The information obtained from Mr. Nelson was verified with the Air Pollution Control Program. Only clean fill was being removed from the site. No violations of the Missouri Solid Waste Management Law or asbestos/demolition regulations observed during the investigation.								
<b>Comp. No.</b>	NE11181	<b>Comp. Info</b>	The complainant states the old Stanley Hotel located on North Main in Brookfield is being demolished and the contractor hauling the waste away is only gone about 20 minutes before returning. This does not allow sufficient time to haul the waste to the Chillicothe Transfer Station and the complainant is concerned the waste is being improperly disposed of on private property.

<b>Comments</b>	No violation issued at the time of the investigation by an inspector with the department's SLRO. Supposedly, the building caught fire on January 2, 2005, and burned down. While on the site, the inspector spoke with Ms. Jane Rebsamen (636-948-2433 extension 2634, Highway M in Imperial, MO 63052), whose mother owns the property next door. Ms. Rebsamen says a wall of the building that burned is falling onto her mother's barn. Ms. Rebsamen said the building was formerly Ozark Dairy, then it became a meat market before Mr. Duke Bremmerkamp at 314-221-2277, operated his heavy equipment repair shop in the building. Ms. Rebsamen said the building was in the process of being sold to Tyler's Market to make way for a gas station or a grocery store. Mr. George Bremmerkamp contacted the inspector on April 14, 2005. Mr. Bremmerkamp said R.K. Construction was to do the demolition work for Tyler's Market within a couple of weeks. The inspector told Mr. Bremmerkamp about his responsibility to do an asbestos survey and demolition notification. The inspector contacted Ms. Susan Tyler with Tyler's Market at telephone number 636-942-4445, at 11:15 a.m. on April 20, 2005. The inspector told Ms. Tyler she is responsible for conducting an asbestos survey and notifying the state prior to the demolition. Ms. Tyler said Mr. Dong Draper is currently holding a note on the building. Ms. Tyler said the building is now posted as condemned per Mr. Gerald Boyer at 636-797-5378, a field inspector for Jefferson County. Ms. Jean Ehler at 636-942-2202 contacted the inspector on April 25, 2005. Ms. Ehler said more of the building is falling onto her mother's barn. Ms. Ehler said it is condemned by the county and there is now a sign posted. Ms. Ehler suggested the inspector contact Mr. Gerald Boyer with Jefferson County Code Enforcement at 636-797-5036 or 5398. The inspector spoke with Mr. Bob Cavington of the Jefferson County Code Enforcement, on April 27, 2005, at 4:00 p.m. The inspector and Mr. Cavington discussed the Leonard's Mobile Home in Hillsboro concerning asbestos issues. The inspector asked Mr. Cavington if they would do the asbestos survey and demolition notification for this commercial structure. Mr. Cavington said they would provide the demolition contractor with all the necessary information to address asbestos issues prior to demolition.								
<b>Comp. No.</b>	SL031904	<b>Comp. Info</b>	The demolition of a commercial building without asbestos notification is located approximately 400 feet North of Route M on Old Lemay Ferry Road in Antonia. The building is in the 6600 block of Old Lemay Ferry Road between 6651 and 6611 Old Lemay Ferry Road. The location of the problem is at 5517 Old Lemay Ferry Road in Antonia.						
SLRO	4/6/2005	3/31/2005	DEE BAX	St. Charles	St. Louis	Asbestos	Jim Callahan	PJD	
<b>Comments</b>	Currently there is no violation of Missouri Air Conservation Commission Regulation 10 CSR 10-6.080 "Emission standards for Hazardous Air Pollutants." One house with a garage was said to have been demolished but the second house in the project is still standing. The property is being sold or listed by Dee Bax with Dutchman Realty telephone number (636) 949-0777. The inspector spoke to Mr. Wade Fuchs telephone number 570-0012 on April 12, 2005, at 3:30 p.m., and Mr. Fuchs said the house and garage at 2450 East Pitman has been demolished, and 2446 is to be demolished. The inspector asked him if an asbestos survey and demolition notice had been completed and he replied, "No", so the inspector informed Mr. Fuchs if he demolishes the second house, then he would be in violation. The inspector spoke to Todd, cellular number (314) 420-8021, on April 12, 2005, and possibly on April 13, 2005, to let him know before the second house is demolished he will need to do an asbestos survey and notify the department of the demolition. The inspector told him the remaining house had what appeared to be a transite siding which if containing asbestos would most likely need to be removed and properly disposed prior to demolition.								
<b>Comp. No.</b>	SL031893	<b>Comp. Info</b>	Two houses side by side are being demolished at 2446 Pitman Avenue in St. Charles County between the Lake St. Louis and Highway 2 exits off I-70. The problem is located at 2446 East Pitman Avenue in Wentzville.

SLRO	4/7/2005	3/28/2005	CHARLIE CUNNINGHAM	Foley	Lincoln	Burning	Paul Mueller	KJA	2101S
<b>Comments</b>	Per observations made during Mr. Mueller's site investigation the department issued, a Notice of Violation for violation of Missouri regulation 10 CSR 10-3.030 "Open Burning Restrictions" to Mr. Cunningham. No further open burning is allowed. See inspection report.								
<b>Comp. No.</b>	SL031850	<b>Comp. Info</b>	Mr. Paul Mueller, of the department's St. Louis Regional Office investigated a complaint of un-permitted solid waste disposal and tire burning at the reported party's property on March 28, 2005. The Solid Waste Management Program regulations address the issue of un-permitted solid waste disposal. The Air Pollution Control Program regulations address the issue of the burning of tires. The location of the problem is at Old Auburn Road.						
SLRO	4/14/2005	4/8/2005	THE DOE RUN COMPANY	Herculaneum	Jefferson	Odors	Charles Gill	PJD	
<b>Comments</b>	No odors were detected during the surveillance conducted from 10:45 a.m. to 11:55 a.m. with Herculaneum Police Officer Reese. It was sunny with the winds to the South. Herculaneum resident Mr. Tim Meyers has been tasked with acquiring signatures for an odor petition to satisfy the requirement in 10 CSR 10-5-160 "Control of Odors in the Ambient Air." The inspector spoke to Mr. Jim Lanzafame at 11:35 a.m. on April 12, 2005, who said the SO2 reading at the City Hall and the High School were at 0.01 PPM on the day the complainant called the department. Mr. Lanzafame suggested the odors inside Mr. Gill's house could be coming from his sewer drain. Mr. Lanzafame could offer no other explanation for the odors. The inspector spoke to Mr. Gill on Tuesday, April 12, 2005, for approximately 15-20 minutes. Mr. Gill was unable to provide any additional details concerning the odors.								
<b>Comp. No.</b>	SL031902	<b>Comp. Info</b>	A strange odor is coming from the Doe Run Company. The complainant could not identify a similar odor and stated whenever he smelled it there was an accompanying metallic taste in his mouth. This occurrence has been noted only within the last month or so and seems to be getting worse.

SWRO	4/7/2005	3/10/2005	BILL LONG	Tunas	Dallas	Burning/Open Dumps/Littering	Anonymous	TP2	
<b>Comments</b>	Approximately two pieces of litter appears to have blown off of Mr. Long's property. Apparently a bag of trash was left outside and an animal got into the bag and scattered the household waste. Also, there are a couple of old trucks in the yard and an old travel trailer. The inspector asked Mr. Long to pick up the trash and properly dispose of it. The trash is scattered along the road, which will make locating the origin difficult.								
<b>Comp. No.</b>	SW6324	<b>Comp. Info</b>	The complainant reports the dumping and burning of trash from junk yard. There is lots of trash blowing off site onto the complainant's property.						
SWRO	4/12/2005	4/7/2005	JOE ARD, PROPERTY OWNER	Aurora	Lawrence	Burning	Anonymous	PFV	
<b>Comments</b>	On April 12, 2005, no one was home at the time of the investigation and the inspector could not observe any burn spots. Some salvage material and used tires could be observed. Will return for a follow-up. The inspector issued a letter of warning to Mr. Ard. This site was referred to the Solid Waste enforcement a couple of years ago.								
<b>Comp. No.</b>	SW6520	<b>Comp. Info</b>	The owner is allowing burning of insulation off of cable and wires. There are two burn spots. There are at least a dozen junk cars, the waste oil and antifreeze are being dumped on the ground. There was a repair shop there in the past, but now it is just a junk pile.						
SWRO	4/12/2005	4/11/2005	RAY ATKINSON	Ava	Christian	Burning/Open Dumps	Kerri Davis	PFV	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Southwest Regional Office spoke with Ms. Davis. Ms. Davis said the fire was started Friday evening April 8, 2005. The sheriff and police were contacted and they asked the neighbor, Mr. Atkinson, to put the fire out. Mr. Atkinson told the police he was burning brush and put the fire out. Mr. Atkinson was referred to the Solid Waste Management Program in November of 2002 for solid waste violations since then the property has been mostly cleaned up. Due to the inspector having no observation of solid waste being open burned Mr. Atkinson will be sent an informational letter reminding him of ways to properly handle solid waste.								
<b>Comp. No.</b>	SW6536	<b>Comp. Info</b>	The people who own the property across the street are burning auto parts. The complainant would like to be notified.						
SWRO	4/13/2005	4/13/2005	RES	Carthage	Jasper	Odors	Dan Comer	CCD	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Southwest Regional Office could not detect odors from RES with a scentometer, although a burning odor was very strong just East of Vine and Elm Streets. The inspector was able to get a detection with the scentometer on Schrieber Foods, Inc. at 5:38 p.m. and 6:01 p.m. on Claxton Street on the South entrance of the plant. The wind was from the Northwest at 4.2 miles per hour and the inspector was able to detect the odor from the street, immediately below vents and stacks from the facility. Very little mixing of ambient air had occurred. The wind was blowing down on the inspector at this location, and a strong cheese odor was present.								
<b>Comp. No.</b>	SW6555	<b>Comp. Info</b>	The complainant reports strong odors.						
SWRO	4/13/2005	4/11/2005	JOHNNY JOHNSON	Reeds Spring	Stone	Burning/Open Dumps	Debbie Linsey	JAG	
<b>Comments</b>	Mr. Johnny Johnson, MHP Manager stated a pile of brush, construction and demolition waste including carpeting, treated and untreated lumber, particle board, sheetrock, metals, plastic siding, plastics, etc. was burned on Saturday. It was set fire by two people from the park. A man and woman after they stopped by to ask him if they could. Mr. Johnson told them he had removed everything he was supposed to but did not say whether he actually told them to torch it. Mr. Johnson would not identify the arsonists by name. The Fire Department put the fire out. Mr. Johnson later ordered them to get off the property. Mr. Johnson said he hauled off everything to the TS in one load and the inspector pointed out there was a lot of regulated solid wastes in the burn residue. Mr. Johnson said he had to remove everything before he burned it and that he had to burn it to get rid of it. The inspector issued a Notice of Violation. See also SW6369 and SW6395.								
<b>Comp. No.</b>	SW6534	<b>Comp. Info</b>	The complainant reports the of burning plastic, carpet and other miscellaneous items.

SWRO	4/13/2005	4/13/2005	RES	Carthage	Jasper	Odors	Maple Mason	CCD	
<b>Comments</b>	An inspector with the Missouri Department of Natural Resources' Southwest Regional Office could not detect odors from RES with a scentometer, although a burning odor was very strong just East of Vine and Elm Streets. The inspector was able to get a detection with the scentometer on Schrieber Foods, Inc. at 5:38 p.m. and 6:01 p.m. on Claxton Street on the South entrance of the plant. The wind was from the Northwest at 4.2 miles per hour and the inspector was able to detect the odor from the street, immediately below vents and stacks from the facility. Very little mixing of ambient air had occurred. The wind was blowing down on the inspector at this location, and a strong cheese odor was present.								
<b>Comp. No.</b>	SW6552	<b>Comp. Info</b>	The complainant reports odors

Very little mixing of ambient air had occurred. The wind was blowing down on the inspector at this location, and a strong cheese odor was present.								
<b>Comp. No.</b>	SW6554	<b>Comp. Info</b>	The complainant reports extremely nauseating odors. The complainant wrote Carthage was once one of the most beautiful cities with many attractive features and a place to enjoy. For months the stench is absolutely nauseating. It makes your eyes burn and rules out anyone enjoying a family barbecue or other outside event while the problem continues. Today, the very day the suit was filed, the stench is unbearable. Please help us regain this once beautiful town for generations to come.

SWRO	4/14/2005	4/14/2005	RES/INDUSTRIAL BOTTOMS	Carthage	Jasper	Odors	Kay Abbiatti, G & G Const.	CCD	
<b>Comments</b>	No odors could be detected with the scentometer throughout the industrial bottoms, or farther out from the area in any direction. Also, could not smell odors leaving RES, but did get a strong poultry processing odor on the east side of Butterball.								
<b>Comp. No.</b>	SW6561	<b>Comp. Info</b>	The odors are so strong the complainant is getting headaches.						
SWRO	4/14/2005	4/13/2005	UNKNOWN COMPANY	Springfield	Greene	Asbestos	Catherine Estep	PFV	
<b>Comments</b>	Mr. Karl Barke with Springfield Air Pollution was notified and referred to this complaint.								
<b>Comp. No.</b>	SW6550	<b>Comp. Info</b>	Asbestos complaint. The company did not handle asbestos properly. There were some clean ups in the late 1990's and early 2000, but according to the complainant, they did not do a good job. Now the company has dumped the asbestos in the north end of the building and it is opened to the air.

SWRO	4/14/2005	3/31/2005	WILBUR PECK	Willard	Greene	Open Dumps/Burning	Janie White	JAG	
<b>Comments</b>	Mostly salvageable appliances and metals. There is a relatively small pile of brush 9 feet diameter x 5 feet on top of which are several small painted boards, approximately 1 foot x 2 feet. The spring is about 70 feet downhill and is not affected by Mr. Peck's activities. Mr. Peck's address is unknown and requires a visit to the Assessor's office to obtain. The inspector will contact Mr. Peck to cease dumping and or burning of regulated solid wastes.								
<b>Comp. No.</b>	SW6457	<b>Comp. Info</b>	Mr. Wilbur Peck lives in Willard and is a retired municipal judge according to the complainant. Mr. Peck is dumping trash near a spring on his property and also burns trash. The trash pile contains air conditioners and is approximately the size of two cars. The complainants are concerned a local spring and Asher Creek are becoming contaminated from the trash dump. The spring in the area is owned by the church. Recently when the trash was burned a horse broke out in hives. You should be able to see the trash pile from the church property.						
SWRO	4/14/2005	4/14/2005	CARTHAGE INDUSTRIAL BOTTOM	Carthage	Jasper	Odors	Kim Pennington	CCD	
<b>Comments</b>	On April 14, 2005, the wind speed and direction was variable. The speed averaged 5.1 miles per hour with gusts up to 9.6 miles per hour coming from the East, Northeast, Southeast. There were wind swirls occurring in the Carthage industrial bottoms. Ms. Camille Dobler, an inspector with the department's Southwest Regional Office, drove Main Street and was able to detect strong poultry products in front of Con Agra. Ms. Dobler drove to the end of Main Street, until directly East of the RES facility and could not detect any odors leaving the facility. There were trucks sitting with product on the lot. Ms. Dobler drove West on Claxton Street and under Highway 571 and drove on several North/South streets West of the bottoms and could not detect any odor with a scentometer. The only smell Ms. Dobler observed was a slight poultry processing odor and faint cheese smell on McGregor Street.								
<b>Comp. No.</b>	SW6573	<b>Comp. Info</b>	The complainant reports the odor is horrible at 8:08 p.m.						
SWRO	4/18/2005	4/18/2005	FEED MILL	Aurora	Lawrence	Fugitive Dust/Particulate	Barbara McKinney	PFV	
<b>Comments</b>	Mr. Paul Vitzthum, an inspector with the department's Southwest Regional Office, did not observe any dust or grain material blowing off any feed and seed mill in Aurora. Mr. Vitzthum drove around the mills from 12:00 p.m. to 12:45 p.m. Mr. Vitzthum observed trucks unloading grain and no violation was seen. Mr. Vitzthum spoke to Ms. McKinney about the fugitive dust and informed her he did not observe any fugitive dust leaving the mill at the time of the investigation. Mr. Vitzthum stated routine surveillance of Aurora will continue when staff are in the area and to please contact the department when she sees fugitive emissions leaving the facility and staff will respond as soon as possible.								
<b>Comp. No.</b>	SW6580	<b>Comp. Info</b>	There is excessive feed dust blowing off the feed mill property on to the complainant's property.						
SWRO	4/22/2005	3/29/2005	WALKER SALVAGE	Pierce City	Lawrence	Burning/Other	Bernard Kuhns	PFV	
<b>Comments</b>	Mr. Walker runs a scrap metal operation and sells his scrap metal to Joplin Commercial Metals in Joplin, Missouri. Mr. Kuhns has been complaining about several different environmental problems caused by Mr. Walker. We have had five inspectors over a period of several years investigate these alleged complaints. To date no violation has been observed. Mr. Kuhns has not provided any new evidence to show potential violations. Mr. Kuhns has been told no violations have been observed in telephone conversations and in letters. The latest telephone conversation with Mr. Kuhns on April 26, 2005, resulted in no new evidence. Mr. Kuhns was informed no further solid waste investigations would take place unless new evidence could be shown. The water pollution permit issues are being handle by the water pollution program.								
<b>Comp. No.</b>	SW6433	<b>Comp. Info</b>	The complainant believes burning is taking place at a salvage yard and the reported party may need a storm water permit for salvage yard operations. The complainant would like to be contacted before going down to the site. He would like to talk with the person from the department. Also see complaint numbers SW5468 and SW4722.

<b>Comments</b> There was no odor present from the the reported facility during the time of investigation. There were slight odors from the Monett treatment plant West of Farmers of America.									
<b>Comp. No.</b>	SW6594	<b>Comp. Info</b> The complainant reports odor has been very bad lately, especially at night.							
SWRO	4/22/2005	4/18/2005	DAWN (LAST NAME UNKNOWN)	Blue Eye	Stone	Burning	Les Fink	PFV	
<b>Comments</b> Mr. Paul Vitzthum, an inspector with the Missouri Department of Natural Resources' Southwest Regional Office, observed evidence of leaf burning but could see no evidence of PVC pipe or the burned hose. Mr. Vitzthum spoke with the Lakewood Mobile Home Park manager Del, and he said he helped burn the leaves and did not see any PVC hose. Mr. Vitzthum told him to watch wind direction and be considerate of the neighbors. Mr. Vitzthum also explained only leaves, brush and household trash may be burned as long as the burning is not a nuisance or health hazard. Mr. Vitzthum contacted Mr. Fink with the results of the inspection and Mr. Fink said he understood and stated he left the Mobile Home Park because of ongoing problems. No violation observed.									
<b>Comp. No.</b>	SW6574	<b>Comp. Info</b> The neighbor is burning PVC plastic pipe and hoses this weekend in leaf piles. The complainant contacted the fire department twice. The complainant said the fire started at 10:00 a.m. Saturday morning and went on through the night. The smoke made him sick.							
SWRO	4/25/2005	4/25/2005	RENEWABLE ENERGY SOLUTION	Carthage	Jasper	Odors	Anonymous	CCD	
<b>Comments</b> The complainant's concern occurred after 3:00 p.m. on Friday, April 22, 2005. On April 22, 2005, the wind was out of the Northwest, as Ms. Camille Dobler, an inspector with the department's Southwest Regional Office, approached the Carthage bottoms area from the West on Central Street around 6:15 p.m. Ms. Dobler turned North on Main Street and then East on Eldorado trying to intercept any odor at the RES facility and could only occasionally pick up a faint raw type odor. Ms. Dobler then drove out to East Highway 96 and turned back to the South. Also, drove streets on both the North and South sides of the square. Ms. Dobler was unable to smell any odors and none registered on the scentometer. Ms. Dobler returned to the area and drove behind Schrieber, then down the RES driveway. Processing at RES began shut down at approximately 5:30 p.m. On April 25, 2005, Ms. Dobler returned to the area. On Saturday and Sunday Ms. Dobler could only pick up a faint odor. On Monday there was a strong processing odor coming from ConAgra. There was an occasional puff of odor coming from RES, but it was weak and not continuous.									
<b>Comp. No.</b>	SW6612	<b>Comp. Info</b> The complainant reports odors. Please see email concerning this complaint.

# **RULE AND SIP AGENDA**

**May 26, 2005  
St. Louis, MO**

## **ACTIONS FOR PUBLIC HEARING:**

- \* 10 CSR 10-6.070 (amendment) New Source Performance Regulations

This amendment incorporates by reference 40 CFR part 60 subparts amended between January 1, 2002 and June 30, 2003. This year's update includes a direct final amendment to subpart (GG) Stationary Gas Turbines (68FR17989). The federal rulemaking codifies several alternative testing and monitoring procedures that have been approved by EPA.

- \* 10 CSR 10-6.075 (amendment) Maximum Achievable Control Technology Regulations

This amendment adopts by reference 18 new 40 CFR part 63 subparts finalized between January 1, 2002 and June 30, 2003. New subparts include the following source categories: Municipal Solid Waste Landfills; Paper and Other Web Coating; Surface Coating of Large Appliances; Printing, Coating, and Dyeing of Fabrics and Other Textiles; Surface Coating of Wood Building Products; Surface Coating of Metal Furniture; Reinforced Plastic Composites Production; Rubber Tire Manufacturing; Semiconductor Manufacturing; Pushing, Quenching, and Battery Stacks; Asphalt Processing and Asphalt Roofing Manufacturing; Integrated Iron and Steel Manufacturing Facilities; Brick and Structural Clay Products Manufacturing; Clay Ceramics Manufacturing; Flexible Polyurethane Foam Fabrication Operations; Hydrochloric Acid Production; Engine Test Cells/Standards; and Friction Materials Manufacturing Facilities.

Additionally, this amendment updates previously adopted subparts. These updates will be explained in detail during the public hearing.

- \* 10 CSR 10-6.080 (amendment) Emission Standards for Hazardous Air Pollutants

This amendment updates 40 CFR part 61 subparts finalized between January 1, 2002 and June 30, 2003 previously adopted by reference. This includes a direct final amendment to subpart (FF) Benzene Waste Operations (67FR68526 and 68FR6082). The federal rulemaking adds an exemption for organic vapors routed to the fuel gas system, a new compliance option for tanks and to clarify the standards for containers. These amendments will be explained in greater detail during the public hearing.

- \* Missouri State Implementation Plan—NO<sub>x</sub> SIP Call Emissions Budget Demonstration for Missouri

The EPA's NO<sub>x</sub> SIP call required states to submit a budget demonstration to ensure that the state would meet the NO<sub>x</sub> emissions budget that EPA developed during the calendar year 2007. This document describes the rulemaking process, emission inventory development, and authorities that Missouri is relying on to complete the requirements of the NO<sub>x</sub> SIP call.

## **ACTIONS TO BE VOTED ON:**

- \* 10 CSR 10-6.360 (new rule) Control of NO<sub>x</sub> Emissions From Electric Generating Units and Non-Electric Generating Boilers

This rule was developed to address the Electric Generating Unit (EGU) portion of Missouri's budget in the Environmental Protection Agency's (EPA's) Oxides of Nitrogen State Implementation Plan Call, as published on April 21, 2004. The new rule establishes an emissions cap for EGUs and non-electric generating boilers based on the EPA's NO<sub>x</sub> SIP call. In addition, this rule will allow electric generating units and non-electric generating boilers in the eastern one-third of Missouri to participate in the EPA's regional trading program.

- \* 10 CSR 10-6.380 (new rule) Control of NO<sub>x</sub> Emissions From Portland Cement Kilns

This rule was developed to address the Portland Cement Kiln portion of Missouri's budget in the EPA's NO<sub>x</sub> SIP call. The new rule establishes control technologies and emission rates for NO<sub>x</sub> emissions from cement kilns.

- \* 10 CSR 10-6.390 (new rule) Control of NO<sub>x</sub> Emissions From Large Internal Combustion Engines

This rule was developed to address the large stationary internal combustion engine portion of Missouri's budget in the EPA's NO<sub>x</sub> SIP call. The new rule establishes control technologies and emission rates for NO<sub>x</sub> emissions from stationary combustion engines.

**June 30, 2005**  
**Jefferson City, MO**

### **ACTIONS FOR PUBLIC HEARING**

- \* 10 CSR 10-2.390 (amendment) Conformity to State or Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. or the Federal Transit Laws

This proposed amendment will amend the state Kansas City transportation conformity rule to bring it into compliance with the recently amended federal transportation conformity rule.

- \* 10 CSR 10-5.480 (amendment) Conformity to State or Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. or the Federal Transit Laws

This proposed amendment will amend the state St. Louis transportation conformity rule to bring it into compliance with the recently amended federal transportation conformity rule.

- \* Missouri State Implementation Plan—Doe Run Herculanum, Modification to Consent Judgement

On December 7, 2000, the Missouri Air Conservation Commission adopted a revision to the state implementation plan for the control of lead emissions at the Doe Run Herculanum smelter. The plan included a Consent Judgement that set emission control construction deadlines, process throughput limitations, outlined a set of contingency measures, and established stipulated penalties with potential production cuts. The Judgement was filed in Iron County Court and signed on January 5, 2001, and the plan was submitted to EPA on January 9, 2001, and formally approved on April 16, 2002.

The emission control strategy involved enclosure of the main processes at the plant, and the installation of building ventilation systems. The ventilation gases are filtered by state-of-the-art, high-efficiency baghouse filtration systems prior to release to the atmosphere. Capital costs were approximately \$12,000, 000. All of the emission control projects were completed by the deadline established in the Consent Judgement (July 31, 2002).

The Consent Judgement required the baghouses to meet a 0.022 grain per dry standard cubic foot performance standard, and it included language requiring the use of “Teflon membrane bags. Doe Run would like to replace these “Teflon membrane bags” with spun-bond pleated bags that have approximately twice the filter area. The Department of Natural Resources’ Air Pollution Control Program has been assured that the replacement bags will perform properly, and Doe Run will be required to conduct testing to demonstrate proper performance. The Consent Judgement must be modified to

accommodate this change. The Consent Judgement has provisions for modification that simply require the parties to agree on the modification.

The purpose of the public hearing is to present the Consent Judgement modification for public comment

- \* Missouri State Implementation Plan—Update to Kansas City Maintenance Plan for Control of Ozone

This proposed update to the 2002 Kansas City Maintenance Plan for Control of Ozone incorporates references to the 8-hour National Ambient Air Quality Standards and associated control triggers. Information regarding historical background and monitoring data/locations has also been updated. This revision will be in place until a new 8-hour ozone maintenance plan can be developed to meet the U.S. Environmental Protection Agency June 15, 2007 deadline.

#### **ACTIONS TO BE VOTED ON:**

- \* 10 CSR 10-6.070 (amendment) New Source Performance Regulations

This amendment incorporates by reference 40 CFR part 60 subparts amended between January 1, 2002 and June 30, 2003. This year's update includes a direct final amendment to subpart (GG) Stationary Gas Turbines (68FR17989). The federal rulemaking codifies several alternative testing and monitoring procedures that have been approved by EPA.

- \* 10 CSR 10-6.075 (amendment) Maximum Achievable Control Technology Regulations

This amendment adopts by reference 18 new 40 CFR part 63 subparts finalized between January 1, 2002 and June 30, 2003. New subparts include the following source categories: Municipal Solid Waste Landfills; Paper and Other Web Coating; Surface Coating of Large Appliances; Printing, Coating, and Dyeing of Fabrics and Other Textiles; Surface Coating of Wood Building Products; Surface Coating of Metal Furniture; Reinforced Plastic Composites Production; Rubber Tire Manufacturing; Semiconductor Manufacturing; Pushing, Quenching, and Battery Stacks; Asphalt Processing and Asphalt Roofing Manufacturing; Integrated Iron and Steel Manufacturing Facilities; Brick and Structural Clay Products Manufacturing; Clay Ceramics Manufacturing; Flexible Polyurethane Foam Fabrication Operations; Hydrochloric Acid Production; Engine Test Cells/Standards; and Friction Materials Manufacturing Facilities.

Additionally, this amendment updates previously adopted subparts. These updates will be explained in detail during the public hearing.

- \* 10 CSR 10-6.080 (amendment) Emission Standards for Hazardous Air Pollutants

This amendment updates 40 CFR part 61 subparts finalized between January 1, 2002 and June 30, 2003 previously adopted by reference. This includes a direct final amendment to subpart (FF) Benzene Waste Operations (67FR68526 and 68FR6082). The federal rulemaking adds an exemption for organic vapors routed to the fuel gas system, a new compliance option for tanks and to clarify the standards for containers. These amendments will be explained in greater detail during the public hearing.

\* Missouri State Implementation Plan—NO<sub>x</sub> SIP Call Emissions Budget Demonstration for Missouri

The EPA's NO<sub>x</sub> SIP call required states to submit a budget demonstration to ensure that the state would meet the NO<sub>x</sub> emissions budget that EPA developed during the calendar year 2007. This document describes the rulemaking process, emission inventory development, and authorities that Missouri is relying on to complete the requirements of the NO<sub>x</sub> SIP call.

**July 21, 2005**  
**Poplar Bluff, MO**

### **ACTIONS FOR PUBLIC HEARING**

- \* 10 CSR 10-1.030 (new rule) Air Conservation Commission Appeals and Requests for Hearings

This proposed rule contains all procedural regulations for all contested cases heard by the commission or assigned to a hearing officer by the commission. The rule is a product of the Commissioner's Core Workgroup that was established to develop and recommend uniform policies and procedures to the state's environmental commissions for the conducting business on contested cases in a manner that promotes accessibility, transparency, predictability, consistency, and fairness to all affected parties.

- \* 10 CSR 10-6.110 (amendment) Submission of Emission Data, Emission Fees and Process Information

This proposed amendment will establish the emission fee for Missouri facilities as required annually by 643.070 and 643.079, RSMo. The air emission fee for calendar year 2005 is proposed to be increased from \$33.00 to \$35.50 per ton of regulated air pollutant. Also, this proposed amendment will change the fee payment and Emissions Inventory Questionnaire submission date from April 1 to June 1 each year for United States Department of Labor Standard Industrial Classification 4911 Electric Services. All other United States Department of Labor Standard Industrial Classifications will continue to have the April 1 submission date each year.

### **ACTIONS TO BE VOTED ON:**

- \* 10 CSR 10-2.390 (amendment) Conformity to State or Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. or the Federal Transit Laws

This proposed amendment will amend the state Kansas City transportation conformity rule to bring it into compliance with the recently amended federal transportation conformity rule.

- \* 10 CSR 10-5.480 (amendment) Conformity to State or Federal Implementation Plans of Transportation Plans, Programs, and Projects Developed, Funded or Approved Under Title 23 U.S.C. or the Federal Transit Laws

This proposed amendment will amend the state St. Louis transportation conformity rule to bring it into compliance with the recently amended federal transportation conformity rule.

\* Missouri State Implementation Plan—Doe Run Herculaneum, Modification to Consent Judgement

On December 7, 2000, the Missouri Air Conservation Commission adopted a revision to the state implementation plan for the control of lead emissions at the Doe Run Herculaneum smelter. The plan included a Consent Judgement that set emission control construction deadlines, process throughput limitations, outlined a set of contingency measures, and established stipulated penalties with potential production cuts. The Judgement was filed in Iron County Court and signed on January 5, 2001, and the plan was submitted to EPA on January 9, 2001, and formally approved on April 16, 2002.

The emission control strategy involved enclosure of the main processes at the plant, and the installation of building ventilation systems. The ventilation gases are filtered by state-of-the-art, high-efficiency baghouse filtration systems prior to release to the atmosphere. Capital costs were approximately \$12,000, 000. All of the emission control projects were completed by the deadline established in the Consent Judgement (July 31, 2002).

The Consent Judgement required the baghouses to meet a 0.022 grain per dry standard cubic foot performance standard, and it included language requiring the use of “Teflon membrane bags. Doe Run would like to replace these “Teflon membrane bags” with spun-bond pleated bags that have approximately twice the filter area. The Department of Natural Resources’ Air Pollution Control Program has been assured that the replacement bags will perform properly, and Doe Run will be required to conduct testing to demonstrate proper performance. The Consent Judgement must be modified to accommodate this change. The Consent Judgement has provisions for modification that simply require the parties to agree on the modification.

The purpose of the public hearing is to present the Consent Judgement modification for public comment.

\* Missouri State Implementation Plan—Update to Kansas City Maintenance Plan for Control of Ozone

This proposed update to the 2002 Kansas City Maintenance Plan for Control of Ozone incorporates references to the 8-hour National Ambient Air Quality Standards and associated control triggers. Information regarding historical background and monitoring data/locations has also been updated. This revision will be in place until a new 8-hour ozone maintenance plan can be developed to meet the U.S. Environmental Protection Agency June 15, 2007 deadline.

**August 25, 2005**  
**Jefferson City, MO**

**ACTIONS FOR PUBLIC HEARING**

(None Scheduled)

**ACTIONS TO BE VOTED ON:**

- \* 10 CSR 10-1.030 (new rule) Air Conservation Commission Appeals and Requests for Hearings

This proposed rule contains all procedural regulations for all contested cases heard by the commission or assigned to a hearing officer by the commission. The rule is a product of the Commissioner's Core Workgroup that was established to develop and recommend uniform policies and procedures to the state's environmental commissions for the conducting business on contested cases in a manner that promotes accessibility, transparency, predictability, consistency, and fairness to all affected parties.

- \* 10 CSR 10-6.110 (amendment) Submission of Emission Data, Emission Fees and Process Information

This proposed amendment will establish the emission fee for Missouri facilities as required annually by 643.070 and 643.079, RSMo. The air emission fee for calendar year 2005 is proposed to be increased from \$33.00 to \$35.50 per ton of regulated air pollutant. Also, this proposed amendment will change the fee payment and Emissions Inventory Questionnaire submission date from April 1 to June 1 each year for United States Department of Labor Standard Industrial Classification 4911 Electric Services. All other United States Department of Labor Standard Industrial Classifications will continue to have the April 1 submission date each year.

**PUBLIC HEARING ON  
PROPOSED AMENDMENT TO  
10 CSR 10-6.070**

**NEW SOURCE PERFORMANCE REGULATIONS**

This proposed amendment will change subsections (1)(A) and (1)(C) and section (3).

Subsection (1)(A) is being amended to update the promulgated date and to include incorporated by reference language required by new statute section 536.031.4, RSMo Supp. 2004.

Subsection (1)(C) and section (3) are being amended for clarification.

*NOTE 1 - Legend for rule actions to be presented at public hearing is as follows:*

- \* Shaded Text - Rule sections or subsections not proposed for amendment. This text is only for reference.*
- \* Unshaded Text - Rule sections or subsections that are proposed for change.*

*NOTE 2 - All unshaded text below this line is printed in the Missouri Register.*

**Title 10 - DEPARTMENT OF  
NATURAL RESOURCES**

**Division 10 - Air Conservation Commission**

**Chapter 6 – Air Quality Standards, Definitions, Sampling and Reference Methods and Air  
Pollution Control Regulations for the Entire State of Missouri**

**PROPOSED AMENDMENT**

**10 CSR 10-6.070 New Source Performance Regulations.** The commission proposes to amend subsections (1)(A) and (1)(C) and section (3). If the commission adopts this rule action, it will be submitted to the U.S. Environmental Protection Agency for delegation of enforcement authority. The evidence supporting the need for this proposed rulemaking is available for viewing at the Missouri Department of Natural Resources' Air Pollution Control Program at the address and phone number listed in the Notice of Public Hearing at the end of this rule. More information concerning this rulemaking can be found at the Missouri Department of Natural Resources' Environmental Regulatory Agenda website, [www.dnr.mo.gov/regs/regagenda.htm](http://www.dnr.mo.gov/regs/regagenda.htm).

*PURPOSE: This rule establishes acceptable design and performance criteria for specified new*

or modified emission sources. The purpose of this rulemaking is to amend 10 CSR 10-6.070 to incorporate 40 CFR part 60 subparts promulgated or amended between January 1, 2002 and June 30, 2003 and clarify the applicability section intent. The evidence supporting the need for this proposed rulemaking, per section 536.016, RSMo, is: elements of the State/EPA work plan and Title V Operating Permit Program requirements.

(1) Applicability.

(A) The provisions of 40 CFR part 60~~[-as of]~~ **promulgated** June 30, [2002]**2003**~~[-shall apply and are adopted by reference as part of]~~ **and hereby incorporated by reference in this rule, as published by the Office of the Federal Register, U.S. National Archives and Records, 700 Pennsylvania Avenue NW, Washington, D.C. 20408. This rule does not incorporate any subsequent amendments or additions.**

(B) Exceptions to the adoption are as follows:

1. Sections 60.4, 60.9 and 60.10 of subpart A;
2. Subpart B in its entirety;
3. Those provisions which are not delegable by United States Environmental Protection Agency (EPA). Examples of these are listed as follows:
  - A. Innovative Technology Waivers (for example, sections 60.47, 60.286 and 60.398);
  - B. Commercial Demonstration Permits (for example, section 60.45a);
  - C. Alternative or Equivalent Methods (for example, sections 60.8(b)(2), 60.8(b)(3), 60.11(e), 60.114(a), 60.195(b), 60.302(d)(3), 60.482-1(c)(2), 60.484, 60.493(b)(2)(i)(A), 60.496(a)(1), 60.592(c) and 60.623); and
  - D. National Consistency (for example, sections 60.332(a)(3) and 60.335(f)(1)); and
4. Incinerators which are subject to Hazardous Waste Management Commission rule 40 CFR 264, subpart O as incorporated in 10 CSR 25-7.264 shall not be subjected to the requirements of this rule. The exemptions granted under 40 CFR 264.340(b) as incorporated in 10 CSR 25-7.264 are subject to this rule. All other applicable requirements of this chapter shall remain in effect as to the incinerators.

(C) Where emission limitations, test procedure or other requirements found in both subsection (1)(A) of this rule and in another rule under Title 10 Division 10 of the *Code of State Regulations* are applicable to an emission source, the more restrictive ~~of each emission limitation, the more accurate test procedure or the more restrictive~~ **rule** requirement shall be applied.

(2) Definitions. Certain terms used in 40 CFR part 60 refer to federal officers, agencies and publications. The following terms applicable to Missouri shall be substituted where appropriate for the delegable federal counterparts:

- (A) Director shall be substituted for Administrator;
- (B) Missouri Department of Natural Resources shall be substituted for EPA, EPA Regional Office or Environmental Protection Agency; and
- (C) *Missouri Register* shall be substituted for *Federal Register*.

(3) General Provisions. The following are the New Source Performance Standards (NSPS) 40 CFR part 60 subparts that are adopted by reference in **subsection (1)(A)** of this rule.

Individual source operations or installations in these categories are subject to this rule based on date of commencement of construction and other category specific parameters, as specified in the applicable subpart:

<b>Subpart</b>	<b>Title</b>
(D)	Fossil-Fuel Fired Steam Generators
(Da)	Electric Utility Steam Generating Units
(Db)	Industrial-Commercial-Institutional Steam Generating Units
(Dc)	Small Industrial-Commercial-Institutional Steam Generating Units
(E)	Incinerators
(Ea)	Municipal Waste Combustors constructed after December 20, 1989, and on or before September 20, 1994
(Eb)	Municipal Waste Combustors constructed after September 20, 1994
(Ec)	Hospital/Medical/Infectious Waste Incinerators constructed after June 20, 1996
(F)	Portland Cement Plants
(G)	Nitric Acid Plants
(H)	Sulfuric Acid Plants
(I)	Asphalt Concrete Plants
(J)	Petroleum Refineries
(K)	Storage Vessels for Petroleum Liquids after June 11, 1973
(Ka)	Storage Vessels for Petroleum Liquids
(Kb)	Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) after July 23, 1984
(L)	Secondary Lead Smelters
(M)	Secondary Brass and Bronze Production Plants
(N)	Primary Emissions from Basic Oxygen Process Furnaces
(Na)	Secondary Emissions from Basic Oxygen Process Steelmaking Facilities
(O)	Sewage Treatment Plants
(P)	Primary Copper Smelters
(Q)	Primary Zinc Smelters
(R)	Primary Lead Smelters
(S)	Primary Aluminum Reduction Plants
(T)	Phosphate Fertilizer Industry: Wet-Process Phosphoric Acid Plants
(U)	Phosphate Fertilizer Industry: Super-phosphoric Acid Plants
(V)	Phosphate Fertilizer Industry: Diammonium Phosphate Plants
(W)	Phosphate Fertilizer Industry: Triple Superphosphate Plants
(X)	Phosphate Fertilizer Industry: Granular Triple Superphosphate Storage Facilities
(Y)	Coal Preparation Plants
(Z)	Ferroalloy Production Facilities
(AA)	Steel Plants: Electric Arc Furnaces
(AAa)	Steel Plants: Electric Arc Furnaces and Argon-Oxygen Decarburization Vessels
(BB)	Kraft Pulp Mills
(CC)	Glass Manufacturing Plants
(DD)	Grain Elevators
(EE)	Surface Coating of Metal Furniture
(GG)	Stationary Gas Turbines
(HH)	Lime Manufacturing Plants

- (KK) Lead-Acid Battery Manufacturing Plants
- (LL) Metallic Mineral Processing Plants
- (MM) Automobile and Light-Duty Truck Surface Coating Operations
- (NN) Phosphate Rock Plants
- (PP) Ammonium Sulfate Manufacture
- (QQ) Graphic Arts Industry: Publication Rotogravure Printing
- (RR) Pressure Sensitive Tape and Label Surface Coating Operations
- (SS) Industrial Surface Coating: Large Appliances
- (TT) Metal Coil Surface Coating

- (NNN) VOC Emissions from SOCM I Distillation Operations
- (OOO) Nonmetallic Mineral Processing Plants
- (PPP) Wool Fiberglass Insulation Manufacturing Plants
- (QQQ) VOC Emissions From Petroleum Refinery Wastewater Systems
- (RRR) Synthetic Organic Chemical Manufacturing Reactor Processes
- (SSS) Magnetic Tape Coating Facilities
- (TTT) Industrial Surface Coating: Surface Coating of Plastic Parts for Business Machines
- (UUU) Calciners and Dryers in Mineral Industries
- (VVV) Polymeric Coating of Supporting Substrates Facilities
- (WWW) Municipal Solid Waste Landfills
- (AAAA) Small Municipal Waste Combustion Units for Which Construction is Commenced After August 30, 1999 or for Which Modification or Reconstruction is Commenced After June 6, 2001
- (CCCC) Commercial and Industrial Solid Waste Incineration Units for Which Construction Is Commenced After November 30, 1999 or for Which Modification or Reconstruction Is Commenced on or After June 1, 2001

(4) Reporting. Reporting requirements are specified in each federal regulation adopted by reference.

(5) Test Methods.

- (A) Relation to 10 CSR 10-6.030 Sampling Methods for Air Pollution Sources. The sampling methods given in 40 CFR part 60, Appendix A and specified in 10 CSR 10-6.030 shall be effective as of the date in section (1) of this rule.
- (B) Relation to 10 CSR 10-6.040 Reference Methods. The reference methods given in 40 CFR parts 50 and 53 and specified in 10 CSR 10-6.040(4) shall be effective as of the date in section (1) of this rule.

*AUTHORITY: section 643.050, RSMo 2000. Original rule filed Dec. 10, 1979, effective April 11, 1980. Amended: Filed Feb. 9, 1981, effective July 11, 1981. Amended: Filed Dec. 10, 1981, effective June 11, 1982. Amended: Filed Dec. 15, 1982, effective May 12, 1983. Amended: Filed Jan. 12, 1983, effective June 11, 1983. Amended: Filed Feb. 14, 1984, effective July 12, 1984. Amended: Filed March 14, 1985, effective Aug. 26, 1985. Amended: Filed June 5, 1986, effective Sept. 26, 1986. Amended: Filed April 2, 1987, effective Aug. 27, 1987. Amended: Filed March 2, 1988, effective June 27, 1988. Amended: Filed June 6, 1989, effective Oct. 27, 1989. Amended: Filed March 31, 1992, effective Feb. 26, 1993. Amended: Filed March 25, 1993, effective Nov. 8, 1993. Amended: Filed June 30, 1994, effective Feb. 26, 1995. Amended: Filed Sept. 14, 1995, effective May 30, 1996. Amended: Filed July 15, 1997, effective Feb. 28, 1998. Amended: Filed March 15, 1999, effective Oct. 30, 1999. Amended: Filed July 30, 1999, effective March 30, 2000. Amended: Filed May 15, 2000, effective Dec. 30, 2000. Amended: Filed Jan. 31, 2002, effective Sept. 30, 2002. Amended: Filed Feb. 14, 2003, effective Oct. 30, 2003. Amended: Filed Feb. 17, 2005.*

*PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.*

*PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.*

*NOTICE OF PUBLIC HEARING AND NOTICE TO SUBMIT COMMENTS: A public hearing on this proposed amendment will begin at 9:00 a.m., May 26, 2005. The public hearing will be held at the Holiday Inn Westport, Plaza 2 Room, 1973 Craigshire Road, St. Louis, MO. Opportunity to be heard at the hearing shall be afforded any interested person. Written request to be heard should be submitted at least seven (7) days prior to the hearing to Director, Missouri Department of Natural Resources' Air Pollution Control Program, 205 Jefferson Street, PO Box 176, Jefferson City, MO 65102-0176, (573) 751-4817. Interested persons, whether or not heard, may submit a written statement of their views until 5:00 p.m., June 2, 2005. Written comments shall be sent to Chief, Operations Section, Missouri Department of Natural Resources' Air Pollution Control Program, 205 Jefferson Street, PO Box 176, Jefferson City, MO 65102-0176.*

**PUBLIC HEARING ON  
PROPOSED AMENDMENT TO  
10 CSR 10-6.075**

**MAXIMUM ACHIEVABLE CONTROL TECHNOLOGY REGULATIONS**

This proposed amendment will change subsection (1)(A) and section (3); add new subsection (1)(B); and renumber and amend subsections (1)(B) and (1)(C).

Subsection (1)(A) is being amended to update the promulgated date and to include incorporated by reference language required by new statute section 536.031.4, RSMo Supp. 2004.

Section (3) is being amended for clarification and to include amendments to previously adopted 40 CFR part 63 subparts.

New subsection (1)(B) is being added to include adoption exceptions.

Current subsection (1)(B) is being renumbered as subsection (1)(C) for consistency.

Current subsection (1)(C) is being renumbered as subsection (1)(D) for consistency and is being amended for clarification.

*NOTE 1 - Legend for rule actions to be presented at public hearing is as follows:*

- \* Shaded Text - Rule sections or subsections not proposed for amendment. This text is only for reference.*
- \* Unshaded Text - Rule sections or subsections that are proposed for change.*

*NOTE 2 - All unshaded text below this line is printed in the Missouri Register.*

---

**Title 10 - DEPARTMENT OF  
NATURAL RESOURCES**

**Division 10 - Air Conservation Commission**

**Chapter 6 – Air Quality Standards, Definitions, Sampling and Reference Methods and Air  
Pollution Control Regulations for the Entire State of Missouri**

**PROPOSED AMENDMENT**

**10 CSR 10-6.075 Maximum Achievable Control Technology Regulations.** The commission proposes to amend subsections (1)(A) and section (3); add new subsection (1)(B); and renumber and amend subsections (1)(B) and (1)(C). If the commission adopts this rule action, it will be submitted to the U.S. Environmental Protection Agency for delegation of enforcement authority. The evidence supporting the need for this proposed rulemaking is available for viewing at the Missouri Department of Natural Resources' Air Pollution Control Program at the address and phone number listed in the Notice of Public Hearing at the end of this rule. More information concerning this rulemaking can be found at the Missouri Department of Natural Resources' Environmental Regulatory Agenda website, [www.dnr.mo.gov/regagenda.htm](http://www.dnr.mo.gov/regagenda.htm).

*PURPOSE: This rule establishes emission control technology, performance criteria and work practices to achieve emission standards for sources that emit or have the potential to emit hazardous air pollutants. The purpose of this rulemaking is to amend 10 CSR 10-6.075 to incorporate 40 CFR part 63 subparts promulgated or amended between January 1, 2002 and June 30, 2003 and clarify the applicability section intent. The evidence supporting the need for this proposed rulemaking, per section 536.016, RSMo, is: elements of the State/EPA work plan and Title V Operating Permit Program requirements.*

(1) Applicability.

(A) The provisions of 40 CFR part 63 ~~[as of]~~ **promulgated** June 30, ~~[2002]~~**2003**~~[-with the exception of those provisions which are not delegable by the United States Environmental Protection Agency (EPA) shall apply and are adopted by reference as part of]~~ **and hereby incorporated by reference in this rule, as published by the Office of the Federal Register, U.S. National Archives and Records, 700 Pennsylvania Avenue NW, Washington, D.C. 20408. This rule does not incorporate any subsequent amendments or additions.**

(B) **Exceptions to the adoption are as follows:**

- 1. Sections 63.13 and 60.15(a)(2) of subpart A; and**
- 2. Those provisions which are not delegable by United States Environmental Protection Agency (EPA). Examples of these include alternative or equivalent methods (for example, sections 63.102(b), 63.150(I)(1) through (I)(4), and 63.177).**

~~[B]~~(C) In addition to complying with the provisions of this rule, affected sources may be required to obtain an operating permit pursuant to Title V of the Clean Air Act Amendments or 10 CSR 10-6.065.

~~[C]~~(D) Where emission limitations, test procedure or other requirements found in both subsection (1)(A) of this rule and in another rule under Title 10 Division 10 of the *Code of State Regulations* are applicable to an emission source, the more restrictive ~~[emission limitation, the more accurate test procedure or the more restrictive]~~ **rule** requirement shall be applied.

(2) Definitions. Certain terms used in 40 CFR part 63 refer to federal officers, agencies and publications. The following terms applicable to Missouri shall be substituted where appropriate for the delegable federal counterparts:

- (A) Director shall be substituted for Administrator;
- (B) Missouri Department of Natural Resources shall be substituted for EPA, EPA Regional Office or Environmental Protection Agency; and
- (C) *Missouri Register* shall be substituted for *Federal Register*.

- (3) General Provisions. The following are the Maximum Achievable Control Technology (MACT) 40 CFR part 63 subparts that are adopted by reference in **subsection (1)(A)** of this rule. Individual source operations or installations in these categories are subject to this rule based on category specific parameters, as specified in the applicable subpart:

<b>Subpart</b>	<b>Title</b>
(F)	National Emission Standards for Organic Hazardous Air Pollutants From the Synthetic Organic Chemical Manufacturing Industry
(G)	National Emission Standards for Organic Hazardous Air Pollutants From the Synthetic Organic Chemical Manufacturing Industry for Process Vents, Storage Vessels, Transfer Operations, and Wastewater
(H)	National Emission Standards for Organic Hazardous Air Pollutants for Equipment Leaks
(I)	National Emission Standards for Organic Hazardous Air Pollutants for Certain Processes Subject to the Negotiated Regulation for Equipment Leaks
(L)	National Emission Standards for Coke Oven Batteries
(M)	National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities
(N)	National Emission Standards for Chromium Emissions From Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks
(O)	Ethylene Oxide Emissions Standards for Sterilization Facilities
(Q)	National Emission Standards for Hazardous Air Pollutants for Industrial Process Cooling Towers
(R)	National Emission Standards for Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations)
(S)	National Emission Standards for Hazardous Air Pollutants from the Pulp and Paper Industry
(T)	National Emission Standards for Halogenated Solvent Cleaning

*AUTHORITY: section 643.050, RSMo 2000. Original rule filed May 1, 1996, effective Dec. 30, 1996. Amended: Filed April 14, 1998, effective Nov. 30, 1998. Amended: Filed March 15, 1999, effective Oct. 30, 1999. Amended: Filed July 30, 1999, effective March 30, 2000. Amended: Filed May 15, 2000, effective Dec. 30, 2000. Amended: Filed Jan. 31, 2002, effective Sept. 30, 2002. Amended: Filed Feb. 14, 2003, effective Oct. 30, 2003. Amended: Filed Feb. 17, 2005.*

*PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.*

*PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.*

*NOTICE OF PUBLIC HEARING AND NOTICE TO SUBMIT COMMENTS: A public hearing on this proposed amendment will begin at 9:00 a.m., May 26, 2005. The public hearing will be held at the Holiday Inn Westport, Plaza 2 Room, 1973 Craigshire Road, St. Louis, MO. Opportunity to be heard at the hearing shall be afforded any interested person. Written request to be heard should be submitted at least seven (7) days prior to the hearing to Director, Missouri Department of Natural Resources' Air Pollution Control Program, 205 Jefferson Street, PO Box 176, Jefferson City, MO 65102-0176, (573) 751-4817. Interested persons, whether or not heard, may submit a written statement of their views until 5:00 p.m., June 2, 2005. Written comments shall be sent to Chief, Operations Section, Missouri Department of Natural Resources' Air Pollution Control Program, 205 Jefferson Street, PO Box 176, Jefferson City, MO 65102-0176.*

**PUBLIC HEARING ON  
PROPOSED AMENDMENT TO**

**10 CSR 10-6.080**

**EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS**

This proposed amendment will change sections (1) and (3).

Section (1) is being amended to update the promulgated date, to include incorporated by reference language required by new statute section 536.031.4, RSMo Supp. 2004, to clarify adoption exceptions and other clarifications.

Section (3) is being amended for clarification and to include amendments to previously adopted 40 CFR part 61 subparts.

*NOTE 1 - Legend for rule actions to be presented at public hearing is as follows:*

- \* Shaded Text - Rule sections or subsections not proposed for amendment. This text is only for reference.*
- \* Unshaded Text - Rule sections or subsections that are proposed for change.*

*NOTE 2 - All unshaded text below this line is printed in the Missouri Register.*

---

**Title 10 - DEPARTMENT OF  
NATURAL RESOURCES**

**Division 10 - Air Conservation Commission**

**Chapter 6 – Air Quality Standards, Definitions, Sampling and Reference Methods and Air  
Pollution Control Regulations for the Entire State of Missouri**

**PROPOSED AMENDMENT**

**10 CSR 10-6.080 Emission Standards for Hazardous Air Pollutants.** The commission proposes to amend sections (1) and (3). If the commission adopts this rule action, it will be submitted to the U.S. Environmental Protection Agency for delegation of enforcement authority. The evidence supporting the need for this proposed rulemaking is available for viewing at the Missouri Department of Natural Resources' Air Pollution Control Program at the address and phone number listed in the Notice of Public Hearing at the end of this rule. More information

concerning this rulemaking can be found at the Missouri Department of Natural Resources' Environmental Regulatory Agenda website, [www.dnr.mo.gov/regs/regagenda.htm](http://www.dnr.mo.gov/regs/regagenda.htm).

*PURPOSE: This rule establishes emission standards and performance criteria for new or modified sources emitting hazardous air pollutants. The purpose of this rulemaking is to amend 10 CSR 10-6.080 to incorporate 40 CFR part 61 subparts promulgated or amended between January 1, 2002 and June 30, 2003 and clarify the applicability section intent. The evidence supporting the need for this proposed rulemaking, per section 536.016, RSMo, is: elements of the State/EPA work plan and Title V Operating Permit Program requirements.*

(1) Applicability.

(A) The provisions of 40 CFR part 61~~[, as of]~~ **promulgated** June 30, ~~[2002]~~**2003**~~[, shall apply and are adopted by reference as part of]~~ **and hereby incorporated by reference in this rule, as published by the Office of the Federal Register, U.S. National Archives and Records, 700 Pennsylvania Avenue NW, Washington, D.C. 20408. This rule does not incorporate any subsequent amendments or additions.**

(B) Exceptions to the adoption are as follows: ~~[sections 61.4, 61.16, 61.17, subparts B, H, I, K, W, Q, R, T and those provisions which are not delegable by United States Environmental Protection Agency (EPA). Authorities which may not be delegated include 40 CFR 61.04(b), 61.12(d)(1), 61.13(h)(1)(ii), 61.112(c), 61.164(a)(2), 61.164(a)(3), 61.172(b)(2)(ii)(B), 61.172(b)(2)(ii)(C), 61.174(a)(2), 61.174(a)(3), 61.242-1(c)(2), 61.244, and all authorities listed as not delegable in each subpart under Delegation of Authority.]~~

**1. Sections 60.4, 60.16 and 60.17 of subpart A;**

**2. Subparts B, H, I, K, Q, R, T, and W in their entirety; and**

**3. Those provisions which are not delegate by United States Environmental Protection Agency (EPA). Examples of these include alternative or equivalent methods (for example, sections 61.12(d)(1), 61.13(h)(1)(ii), 61.112(c), 61.164(a)(2), 61.164(a)(3), and 61.244).**

(C) Where emission limitations, test procedures or other requirements found in subsection (1)(A) of this rule and in another rule under Title 10 Division 10 of the *Code of State Regulations* are applicable to an emission source, the more restrictive ~~[emission limitation, the more accurate test procedure or the more restrictive]~~ **rule** requirements shall be applied.

(2) Definitions. Certain terms used in 40 CFR part 61 refer to federal officers, agencies and publications. The following terms applicable to Missouri shall be substituted where appropriate for the delegable federal counterparts:

(A) Director shall be substituted for Administrator;

(B) Missouri Department of Natural Resources shall be substituted for EPA, EPA Regional Office or Environmental Protection Agency; and

(C) *Missouri Register* shall be substituted for *Federal Register*.

(3) The following are the National Emission Standards for Hazardous Air Pollutants (NESHAPs) 40 CFR part 61 subparts that are adopted by reference in **subsection (1)(A)**

of this rule. Individual sources, operations or installations in these categories are subject to this rule based on date of commencement of construction and other category specific parameters, as specified in the applicable subpart:

Subpart	Title
(C)	National Emission Standard for Beryllium
(D)	National Emission Standard for Beryllium Rocket Motor Firing
(E)	National Emission Standard for Mercury
(F)	National Emission Standard for Vinyl Chloride
(J)	National Emission Standard for Equipment Leaks (Fugitive Emission Sources) of Benzene
(L)	National Emission Standard for Benzene Emissions from Coke By-Product Recovery Plants
(M)	National Emission Standard for Asbestos
(N)	National Emission Standard for Inorganic Arsenic Emissions From Glass Manufacturing Plants
(O)	National Emission Standard for Inorganic Arsenic Emissions From Primary Copper Smelters
(P)	National Emission Standard for Inorganic Arsenic Emissions From Arsenic Trioxide and Metallic Arsenic Production Facilities
(V)	National Emission Standard for Equipment Leaks (Fugitive Emission Sources)
(Y)	National Emission Standards for Benzene Emissions From Benzene Storage Vessels
(BB)	National Emission Standards for Benzene Emissions From Benzene Transfer Operations
(FF)	National Emission Standard for Benzene Waste Operations

(4) Reporting. Reporting requirements are specified in each federal regulation adopted by reference.

(5) Test Methods. Test methods are specified in each federal regulation adopted by reference.

*AUTHORITY: section 643.050, RSMo 2000. Original rule filed Dec. 10, 1979, effective April 11, 1980. Amended: Filed Feb. 9, 1981, effective July 11, 1981. Amended: Filed Dec. 10, 1981, effective June 11, 1982. Amended: Filed Jan. 12, 1983, effective June 11, 1983. Amended: Filed Feb. 14, 1984, effective July 12, 1984. Amended: Filed June 4, 1985, effective Oct. 26, 1985. Amended: Filed June 5, 1986, effective Sept. 26, 1986. Amended: Filed Feb. 4, 1987, effective May 28, 1987. Amended: Filed April 2, 1987, effective Aug. 27, 1987. Amended: Filed March 2, 1988, effective June 27, 1988. Amended: Filed June 6, 1989, effective Oct. 27, 1989. Amended: Filed May 1, 1992, effective Feb. 26, 1993. Amended: Filed March 25, 1993, effective Nov. 8, 1993. Amended: Filed June 30, 1994, effective Feb. 26, 1995. Amended: Filed Sept. 14, 1995, effective May 30, 1996. Amended: Filed July 15, 1997, effective Feb. 28, 1998. Amended: Filed March 15, 1999, effective Oct. 30, 1999. Amended: Filed July 30, 1999, effective March 30, 2000. Amended: Filed May 15, 2000, effective Dec. 30, 2000. Amended: Filed Jan. 31, 2002, effective Sept. 30, 2002. Amended: Filed Feb. 14, 2003, effective Oct. 30, 2003. Amended: Filed Feb. 17, 2005.*

*PUBLIC COST: This proposed amendment will not cost state agencies or political subdivisions more than five hundred dollars (\$500) in the aggregate.*

*PRIVATE COST: This proposed amendment will not cost private entities more than five hundred dollars (\$500) in the aggregate.*

*NOTICE OF PUBLIC HEARING AND NOTICE TO SUBMIT COMMENTS: A public hearing on this proposed amendment will begin at 9:00 a.m., May 26, 2005. The public hearing will be held at the Holiday Inn Westport, Plaza 2 Room, 1973 Craigshire Road, St. Louis, MO. Opportunity to be heard at the hearing shall be afforded any interested person. Written request to be heard should be submitted at least seven (7) days prior to the hearing to Director, Missouri Department of Natural Resources' Air Pollution Control Program, 205 Jefferson Street, PO Box 176, Jefferson City, MO 65102-0176, (573) 751-4817. Interested persons, whether or not heard, may submit a written statement of their views until 5:00 p.m., June 2, 2005. Written comments shall be sent to Chief, Operations Section, Missouri Department of Natural Resources' Air Pollution Control Program, 205 Jefferson Street, PO Box 176, Jefferson City, MO 65102-0176.*
